PART F—CONGRESSIONAL FINDINGS, POLICIES, AND COMMENDATIONS

SEC. 1071. SENSE OF CONGRESS RELATING TO THE CONTRIBUTIONS TO OPERATION DESERT STORM MADE BY THE DEFENSE-RELATED INDUSTRIES OF THE UNITED STATES.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States and its coalition allies achieved a great victory in Operation Desert Storm, carried out in the Persian Gulf region in the winter of 1991.

(2) The outstanding success of Operation Desert Storm was due in great measure to the ready availability of weapons and weapon systems exhibiting remarkable accuracy through advanced technological design.

(3) These weapons and weapon systems were designed and produced by the defense-related industries of the United States.

(4) The battle plan for Operation Desert Storm formulated by the commander of the United States Central Command relied on the availability and performance of these weapons and weapon systems.

(5) The successful use of these weapons and weapon systems in accordance with that plan resulted in astonishingly small numbers of killed and wounded among the Armed Forces of the United States and of allied coalition forces in general.

(b) SENSE OF CONGRESS.—It is the sense of Congress—

(1) that the defense-related industries of the United States, and the men and women who work in those industries, deserve the gratitude and appreciation of the Congress and of the United States for the design and production of the technologically-advanced weapons and weapon systems that helped to ensure victory in Operation Desert Storm;

(2) that future decisions relating to the national security of the United States must take into account the need to maintain strong defense-related industries in the United States; and

(3) that it is vitally important to the United States that the defense-related industries of the United States be capable of responding to the national security requirements of the United States.

SEC. 1072. SENSE OF CONGRESS RELATING TO COOPERATION BETWEEN THE MILITARY DEPARTMENTS AND BIG BROTHERS AND BIG SISTERS ORGANIZATIONS.

(a) FINDINGS.—Congress makes the following findings:

(1) The Big Brothers of America and the Big Sisters of America, consisting of 499 independent organizations located across the United States, assist at-risk children and the families of such children by establishing mentor programs that foster one-to-one relationships between such children and concerned adult mentors.

(2) The Big Brothers and Big Sisters organizations annually assist approximately 110,000 such children.

(3) As a result of cooperation between the Department of Defense and Big Brothers and Big Sisters organizations, successful mentor programs have been established at several military installations located in the United States and overseas.

(4) There are an estimated 80,000 single-parent families, and at least 80,000 at-risk youth in those families, that are headed by members of the Armed Forces.

(5) Appropriately trained members of the Armed Forces are exceptionally qualified to serve as concerned adult mentors of at-risk youths in Big Brothers and Big Sisters mentor programs.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) additional cooperation between the Department of Defense and the Big Brothers and Big Sisters organizations located in communities near military installations will assist members of the Armed Forces serving at those installations and those communities in responding to the family support needs of those members and communities; and

(2) the Secretary of Defense should take all practicable steps necessary to encourage such cooperation at military installations located in the United States and to promote the establishment of additional Big Brothers and Big Sisters organizations at such installations located overseas.

SEC. 1073. COMMENDATION OF THE MILITARY COLLEGES FOR THEIR CONTRIBUTIONS TO TRAINING CITIZEN-SOLDIERS.**(a) FINDINGS.—Congress makes the following findings:**

(1) The number of essential military colleges (institutions that the Department of Defense has recognized as constituting a special aspect of American higher education) has decreased from 11 institutions in 1914 to only 4 today: Norwich University, founded in 1819; Virginia Military Institute, established in 1839; The Citadel, The Military College of South Carolina, chartered in 1842; and North Georgia College, which opened in 1873.

(2) The hallmark of these institutions has been their dedication to the principle of the citizen-soldier, and in this regard they are joined in spirit and devotion by the Cadet Corps at Texas A & M University and at Virginia Polytechnic Institute and State University.

(3) Citizen-soldiers are educated, trained, and inspired to become productive members of society in any calling, but are also prepared to serve their country in a military role during times of war or national peril.

(4) These citizen-soldiers have accepted as their duty an obligation to serve their country in every instance of war since the Mexican War, and have without fail or hesitation answered the call to arms—most recently with service in Southwest Asia as part of Operation Desert Storm.

(b) RECOGNITION AND COMMENDATION.—In light of the findings in subsection (a), the Congress—

(1) recognizes and commends military colleges for the unique contributions they have made and continue to make; and

(2) urges citizens of the United States to support the concept of the citizen-soldier to which these colleges are dedicated.

SEC. 1074. SENSE OF CONGRESS RELATING TO THE CHEMICAL DECONTAMINATION TRAINING FACILITY, FORT MCCLELLAN, ALABAMA.**(a) FINDINGS.—Congress makes the following findings:**

(1) The possibility of use of chemical weapons by Iraqi forces was the most significant military threat confronted by members of the Armed Forces of the United States who served in the Persian Gulf region in connection with Operation Desert Storm.

(2) There continues to be extreme concern with respect to the ever more rapid proliferation of chemical weapons and agents, especially among nations in the Middle East.

(3) This proliferation makes it increasingly necessary that members of the Armed Forces have the capability of self-defense against chemical weapons and agents.

(4) Combat training with live chemical agents directly promotes this capability by reducing the life-threatening fear and self doubt that some soldiers experience on a battlefield contaminated by chemical weapons or agents.

(5) Such training further promotes this capability by enhancing the professional credibility of the members of the Armed Forces who train others with respect to chemical weapons and agents.

(6) The Chemical Decontamination Training Facility (CDTF) located at Fort McClellan, Alabama, is the only facility for

conducting combat training with live chemical agents in the Western Hemisphere.

(7) The operations of the Chemical Decontamination Training Facility depend upon the support activities of the Army Chemical School which is also located at Fort McClellan, Alabama.

(8) The Defense Base Closure and Realignment Commission has reported that the closure or diminished operation of the Chemical Decontamination Training Facility could have an adverse impact on the capability of the Armed Forces to defend against the use of chemical weapons and agents and, thus, on the national security of the United States.

(9) The capability of members of the Armed Forces to defend against chemical weapons and agents depends upon maintaining a fully operating facility for conducting combat training with live chemical agents located in the Western Hemisphere including maintaining associated support activities.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the necessity for the Armed Forces to have an effective live chemical agent training facility requires that the Chemical Decontamination Training Facility and the Army Chemical School be continued in operation at Fort McClellan, Alabama, unless a new facility for conducting combat training with live chemical agents is constructed.

SEC. 1075. POLICY REGARDING CONTRACTING WITH FOREIGN FIRMS THAT PARTICIPATE IN THE SECONDARY ARAB BOYCOTT.

(a) RESTATEMENT OF POLICY REGARDING TRADE BOYCOTTS.—As stated in section 3(5)(A) of the Export Administration Act of 1979 (50 U.S.C. App. 2402(5)(A)), it is the policy of the United States to oppose restrictive trade practices or boycotts fostered or imposed by foreign countries against other countries friendly to the United States or against any other United States person.

(b) SENSE OF CONGRESS.—Consistent with the policy referred to in subsection (a), it is the sense of Congress that—

(1) no Department of Defense prime contract should be awarded to a foreign person unless that person certifies to the Secretary of Defense that it does not comply with the secondary Arab boycott of Israel; and

(2) the Secretary of Defense should consider developing a procurement policy to implement the policy expressed in paragraph (1).

SEC. 1076. SENSE OF CONGRESS CONCERNING ISSUANCE OF COMMEMORATIVE CARD FOR OPERATION DESERT STORM SERVICEMEMBERS.

(a) ISSUANCE OF CARD.—It is the sense of Congress that the Secretary of Defense may issue a special commemorative card to each member of the Armed Forces who—

(1) served in the Persian Gulf theater of operations in connection with the Persian Gulf conflict (including service as a member of an air crew over that theater); or

(2) as a member of a reserve component or a retired member, was ordered to active duty in connection with the Persian Gulf conflict.

(b) CONTENT.—Any such commemorative card shall indicate that the servicemember was a participant in the Persian Gulf conflict.

PART G—MISCELLANEOUS MATTERS

SEC. 1081. SURVIVOR NOTIFICATION AND ASSISTANCE; ACCESS TO MILITARY RECORDS OF SERVICE MEMBERS WHO DIE ON ACTIVE DUTY.

(a) **POLICY RE-EXAMINATION.**—The Secretary of Defense shall re-examine policies of the Department of Defense relating to casualty notification and assistance, including policies relating to the access of parents, spouses, and adult children to the records of deceased members of the Armed Forces. The review (1) should determine if existing regulations adequately respect a service member's wishes in the event of death on active duty, and (2) should consider new needs or problems resulting from complex family situations. The review should take into account experiences resulting from the Persian Gulf conflict and should seek to determine if changes in policy or procedures would be in the best interests of both service members and their families.

(b) **MATTERS TO BE EXAMINED.**—The study should examine the advantages and disadvantages of each of the following:

(1) Making the personnel records of a service member who dies on active duty available, in whole or in part, to any adult family member who requests those records.

(2) Excluding from disclosure to family members certain types or categories of information in a deceased service member's personnel records and, if any should ever be excluded, identifying what contents and under what circumstances.

(3) Releasing to family members of a deceased service member relevant records not in the member's personnel records, such as any record of investigation into the circumstances of the member's death.

(4) Making autopsy reports automatically available to family members upon request.

(5) Requiring that more than one family member make a request before activating the release of any information from the member's personnel records.

(6) Revising the "Emergency Data" form prepared by service members (A) to allow specific provision for notification of additional family members in cases such as the case of a divorced service member who leaves children with both a current and a former spouse, or (B) to establish which family member should be entitled to have access to the service member's military records.

(7) Such other matters as the Secretary determines to be appropriate or relevant to the purposes of the study.

(c) **REPORT.**—The Secretary shall submit to the Committees on Armed Services of the Senate and House of Representatives a report containing the results of the study not later than February 1, 1992.

In computing the limitation prescribed in the preceding sentence, there shall be excluded warrant officers described in section 582 of this title.

“§ 572. Warrant officers: original appointment; service credit

duty list who are in the grade of chief warrant officer, W-2, chief warrant officer, W-3, or chief warrant officer, W-4.

“(2) Warrant officers serving on the warrant officer active duty list in the grade of warrant officer, W-1, shall be promoted to the grade of chief warrant officer, W-2, in accordance with regulations prescribed by the Secretary of the military department concerned. Such regulations shall require that an officer have served not less than 18 months on active duty in the grade of warrant officer, W-1, before promotion to the grade of warrant officer, W-2.

“(b) A selection board shall consist of five or more officers who are on the active-duty list of the same armed force as the warrant officers under consideration by the board. At least five members of a selection board must be serving in a permanent grade above major or lieutenant commander. The Secretary concerned may appoint warrant officers, senior in grade to those under consideration, as additional members of the selection board. If warrant officers are appointed members of the selection board and if competitive categories have been established by the Secretary under section 574(b) of this title, at least one must be appointed from each warrant officer competitive category under consideration by the board, unless there is an insufficient number of warrant officers in the competitive category concerned who are senior in grade to those under consideration and qualified, as determined by the Secretary concerned, to be appointed as additional members of the board.

“(c) The Secretary concerned may convene selection boards to recommend regular warrant officers for continuation on active duty under section 580 of this title and for retirement under section 581 of this title.

“(d) When reserve warrant officers of one of the armed forces are to be considered by a selection board convened under subsection (a), the membership of the board shall, if practicable, include at least one reserve officer of that armed force, with the exact number of reserve officers to be determined by the Secretary concerned.

“(b) The Secretary of each military department may establish competitive categories for promotion. Warrant officers in the same competitive category shall compete among themselves for promotion.

“(c) Before convening a selection board under section 573 of this title, the Secretary concerned shall determine for each grade (or grade and competitive category) to be considered by the board the following:

“(1) The maximum number of warrant officers to be recommended for promotion.

“(2) Warrant officers serving in the same grade shall be carried in the order of their rank in that grade.

“(b)(1) In the case of a selection board to consider warrant officers for selection for promotion to the grade of chief warrant officer, W-4, or chief warrant officer, W-5, the Secretary concerned shall establish the number of warrant officers that the selection board may recommend from among warrant officers being considered from below the promotion zone within each grade (or grade and competitive category). The number of warrant officers recommended for promotion from below the promotion zone does not increase the maximum number of warrant officers which the board is authorized under section 574 of this title to recommend for promotion.

“(2) The number of officers recommended for promotion from below the promotion zone may not exceed 10 percent of the total number recommended, except that the Secretary of Defense may authorize such percentage to be increased to not more than 15 percent.

“(c) A selection board convened under section 573(a) of this title may not recommend a warrant officer for promotion unless—

“(1) the officer receives the recommendation of a majority of the members of the board; and

“(2) a majority of the members of the board find that the officer is fully qualified for promotion.

“(d) Each time a selection board is convened under section 573(a) of this title to consider warrant officers in a competitive category for promotion to the next higher grade, each warrant officer in the promotion zone, and each warrant officer above the promotion zone, for the grade and competitive category under consideration shall be considered for promotion.

“§ 576. Information to be furnished to selection boards; selection procedures

“(a) The Secretary of the military department concerned shall furnish to each selection board convened under section 573 of this title the following:

“(1) The maximum number of warrant officers that may be recommended for promotion from those serving in any grade (or grade and competitive category) to be considered, as determined in accordance with section 574 of this title.

“(2) The names and pertinent records of all officers in each grade (or grade and competitive category) to be considered.

“(3) Such information or guidelines relating to the needs of the armed force concerned for warrant officers having particular skills, including guidelines or information relating to the need for either a minimum number or a maximum number of officers with particular skills within a grade or competitive category, as the Secretary concerned determines to be relevant in relation to the requirements of that armed force.

“(b) From each promotion zone for a grade (or grade and competitive category), the selection board shall recommend for promotion to the next higher warrant officer grade those warrant officers whom it considers best qualified for promotion, but no more than the number specified by the Secretary concerned.

“(c) The names of warrant officers selected for promotion under this section shall be arranged in the board’s report in order of the seniority on the warrant officer active-duty list.

Regulations.

“(d) Under such regulations as the Secretary concerned may prescribe, the selection board shall report the names of those warrant officers considered by it whose records establish, in its opinion, their unfitness or unsatisfactory performance. A regular warrant officer whose name is so reported shall be considered, under regulations provided by the Secretary concerned, for retirement or separation under section 1166 of this title.

Reports.

“(e) The report of the selection board shall be submitted to the Secretary of the military department concerned. The Secretary may approve or disapprove all or part of the report.

“(f)(1) Upon receipt of the report of a selection board submitted to him under subsection (e), the Secretary concerned shall review the report to determine whether the board has acted contrary to law or regulation or to guidelines furnished the board under this section. Following such review, unless the Secretary concerned makes a determination as described in paragraph (2), the Secretary shall submit the report as required by subsection (e).

“(2) If, on the basis of a review of the report under paragraph (1), the Secretary of the military department concerned determines that the board acted contrary to law or regulation or to guidelines furnished the board under this section, the Secretary shall return the report, together with a written explanation of the basis for such determination, to the board for further proceedings. Upon receipt of a report returned by the Secretary concerned under this paragraph, the selection board (or a subsequent selection board convened under section 573 of this title for the same grade and competitive category) shall conduct such proceedings as may be necessary in order to revise the report to be consistent with law, regulation, and such guidelines and shall resubmit the report, as revised, to the Secretary in accordance with subsection (e).

“§ 577. Promotions: effect of failure of selection for

“A warrant officer who has been considered for promotion by a selection board convened under section 573 of this title, but not selected, shall be considered for promotion by each subsequent selection board that considers officers in his grade (or grade and competitive category) until he is retired or separated or he is selected for promotion. However, the Secretary concerned may, by regulation, preclude from consideration by a selection board by which he would otherwise be eligible to be considered, a warrant officer who has an established separation date that is within 90 days after the date on which the board is convened.

“§ 578. Promotions; how made; effective date

“(a) When the report of a selection board convened under this chapter is approved by the Secretary concerned, the Secretary shall place the names of the warrant officers approved for promotion on a single promotion list for each grade (or grade and competitive category), in the order of the seniority of such officers on the warrant officer active-duty list.

“(b) Promotions of warrant officers on the warrant officer promotion list shall be made when, in accordance with regulations issued by the Secretary concerned, additional warrant officers in that grade (or grade and competitive category), are needed.

“(c) A regular warrant officer who is promoted is appointed in the regular grade to which promoted, and a reserve warrant officer who is promoted is appointed in the reserve grade to which promoted. The date of appointment in that grade and date of rank shall be prescribed by the Secretary concerned. A warrant officer is entitled to the pay and allowances for the grade to which appointed from the date specified in the appointment order.

“(d) Promotions shall be made in the order in which the names of warrant officers appear on the promotion list and after warrant officers previously selected for promotion in the applicable grade (or grade and competitive category) have been promoted.

“§ 579. Removal from a promotion list

“(a) The name of a warrant officer recommended for promotion by a selection board convened under this chapter may be removed from the report of the selection board by the President.

“(b) The Secretary concerned may remove the name of a warrant officer who is on a promotion list as a result of being recommended for promotion by a selection board convened under this chapter at any time before the promotion is effective.

“(c) An officer whose name is removed from the list of officers recommended for promotion by a selection board continues to be eligible for consideration for promotion.

“(d) If the next selection board that considers the warrant officer for promotion under this chapter selects the warrant officer for promotion and the warrant officer is promoted, the Secretary concerned may, upon his promotion, grant him the same effective date for pay and allowances and the same date of rank, and the same position on the warrant officer active-duty list as the warrant officer would have had if his name had not been so removed.

“(e) If the next selection board does not select the warrant officer for promotion, or if his name is again removed under subsection (a) from the list of officers recommended for promotion by the selection

board or under subsection (b) from the warrant officer promotion list, he shall be treated for all purposes as if he has twice failed of selection for promotion.

“§ 580. Regular warrant officers twice failing of selection for promotion: involuntary retirement or separation

“(a)(1) Unless retired or separated sooner under some other provision of law, a regular chief warrant officer who has twice failed of selection for promotion to the next higher regular warrant officer grade shall be retired under paragraph (2) or (3) or separated from active duty under paragraph (4).

“(2) If a warrant officer described in paragraph (1) has more than 20 years of creditable active service on (A) the date on which the Secretary concerned approves the report of the board under section 576(e) of this title, or (B) the date on which his name was removed from the recommended list under section 579 of this title, whichever applies, the warrant officer shall be retired. The date of such retirement shall be not later than the first day of the seventh calendar month beginning after the applicable date under the preceding sentence, except as provided by section 8301 of title 5. A warrant officer retired under this paragraph shall receive retired pay computed under section 1401 of this title.

“(3) If a warrant officer described in paragraph (1) has at least 18 but not more than 20 years of creditable active service on (A) the date on which the Secretary concerned approves the report of the board under section 576(e) of this title, or (B) the date on which his name was removed from the recommended list under section 579 of this title, whichever applies, the warrant officer shall be retired not later than the date determined under the next sentence unless he is selected for promotion to the next higher regular warrant officer grade before that date. The date of the retirement of a warrant officer under the preceding sentence shall be on a date specified by the Secretary concerned, but not later than the first day of the seventh calendar month beginning after the date upon which he completes 20 years of active service, except as provided by section 8301 of title 5. A warrant officer retired under this paragraph shall receive retired pay computed under section 1401 of this title.

“(4)(A) If a warrant officer described in paragraph (1) has less than 18 years of creditable active service on (i) the date on which the Secretary concerned approves the report of the board under section 576(e) of this title, or (ii) the date on which his name was removed from the recommended list under section 579 of this title, whichever applies, the warrant officer shall be separated. The date of such separation shall be not later than the first day of the seventh calendar month beginning after the applicable date under the preceding sentence.

“(B) A warrant officer separated under this paragraph shall receive separation pay computed under section 1174 of this title except in a case in which—

“(c) The Secretary concerned may defer, until such date as he prescribes, the retirement under subsection (a) of a warrant officer who is serving on active duty in a grade above chief warrant officer, W-5, and who elects to continue to so serve.

“(d) If a warrant officer who also holds a grade above chief warrant officer, W-5, is retired or separated under subsection (a), his commission in the higher grade shall be terminated on the date on which he is so retired or separated.

“(e)(1) A regular warrant officer subject to discharge or retirement under this section may, subject to the needs of the service, be continued on active duty if he is selected for continuation on active duty by a selection board convened under section 573(c) of this title.

“(2) A warrant officer who is selected for continuation on active duty under this subsection but declines to continue on active duty shall be discharged, retired, or retained on active duty, as appropriate, in accordance with this section.

“(3) Each warrant officer who is continued on active duty under this subsection, not subsequently promoted or continued on active duty, and not on a list of warrant officers recommended for continuation or for promotion to the next higher regular grade shall, unless sooner retired or discharged under another provision of law—

“(A) be discharged upon the expiration of his period of continued service; or

“(B) if he is eligible for retirement under any provision of law, be retired under that law on the first day of the first month following the month in which he completes his period of continued service.

Notwithstanding subparagraph (A), a warrant officer who would otherwise be discharged under such subparagraph and who is within two years of qualifying for retirement under section 1293 of this title shall, unless he is sooner retired or discharged under some other provision of law, be retained on active duty until he is qualified for retirement under that section and then be retired.

“(4) The retirement or discharge of a warrant officer pursuant to this subsection shall be considered to be an involuntary retirement or discharge for purposes of any other provision of law.

“(5) Continuation of a warrant officer on active duty under this subsection pursuant to the action of a selection board convened under section 573(c) of this title is subject to the approval of the Secretary concerned.

“(6) The Secretary of Defense shall prescribe regulations for the administration of this subsection. Regulations.

The Secretary concerned shall specify the maximum number of warrant officers that such a board may recommend for retirement.

“(b) A warrant officer who is recommended for retirement under this section and whose retirement is approved by the Secretary concerned shall be retired, under any provision of law under which he is eligible to retire, on the date requested by him and approved by the Secretary concerned, which date shall be not later than the first day of the seventh calendar month beginning after the month in which the Secretary concerned approves the report of the board which recommended the officer for retirement.

“(c) The retirement of a warrant officer pursuant to this section shall be considered to be an involuntary retirement for purposes of any other provision of law.

Regulations.

“(d)(1) The Secretary concerned shall prescribe regulations for the administration of this section. Such regulations shall require that when the Secretary concerned submits a list of regular warrant officers to a selection board convened under section 573(c) of this title to consider regular warrant officers for selection for retirement under this section, the list shall include each warrant officer on the active-duty list in the same grade or same grade and competitive category whose position on the active-duty list is between that of the most junior regular warrant officer in that grade whose name is submitted to the board and that of the most senior regular warrant officer in that grade whose name is submitted to the board.

“(2) Such regulations shall establish procedures to exclude from consideration by the Board any warrant officer who has been approved for voluntary retirement, or who is to be mandatorily retired under any other provision of law, during the fiscal year in which the Board is convened or during the following fiscal year. An officer not considered by a selection board convened under section 573(c) of this title under such regulations because the officer has been approved for voluntary retirement shall be retired on the date approved for the retirement of such officer as of the convening date of such selection board unless the Secretary concerned approves a modification of such date in order to prevent a personal hardship for the officer or for other humanitarian reasons.

SEC. 3505. POLICY ON MILITARY BASE RIGHTS IN PANAMA.

(a) **FINDINGS.**—The Congress finds that—

(1) the Panama Canal is a vital strategic asset to the United States and its allies;

(2) the Treaty Concerning the Permanent Neutrality and Operation of the Panama Canal and the Panama Canal Treaty, both signed on September 7, 1977, mandate that (A) no United States troops are to remain in Panama after December 31, 1999; (B) the Canal Zone is to be incorporated into Panama; (C) United States Panama-based communications facilities are to be phased out; (D) all United States training in Panama of Latin American soldiers is to be halted; and (E) management and operational control of the Canal is to be turned over to Panamanian authorities;

(3) the government of President Guillermo Endara has demonstrated its determination to restore democracy to Panama by quickly moving to implement changes in the nation's political, economic, and judicial systems;

(4) friendly cooperative relations currently exist between the United States and the Republic of Panama;

(5) the region has a history of unstable governments which pose a threat to the future operation of the Panama Canal, and the United States must have the discretion and the means to defend the Canal and ensure its continuous operation and availability to the military and commercial shipping of the United States and its allies in times of crisis;

(6) the Panama Canal is vulnerable to disruption and closure by unforeseen events in Panama, by terrorist attack, and by air strikes or other attack by foreign powers;

(7) the United States fleet depends upon the Panama Canal for rapid transit ocean to ocean in times of emergency, as demonstrated during World War II, the Korean Conflict, the Vietnam Conflict, the Cuban Missile Crisis, and the Persian Gulf Conflict, thereby saving 13,000 miles and three weeks steaming effort around Cape Horn;

(8) the presence of the United States Armed Forces offers a viable defense against sabotage or other threat to the Panama Canal; and

(9) the 10,000 United States military personnel now based in Panama, including the headquarters of the United States Southern Command, cannot remain there beyond December 31, 1999, without a new agreement with Panama.

(b) **POLICY.**—It is the sense of the Congress that the President—

(1) should begin negotiations with the Government of

Panama, at a mutually acceptable time, to consider whether the two Governments should allow the permanent stationing of United States military forces in Panama beyond December 31, 1999; and

(2) should consult with the Congress throughout those negotiations.

Joint Resolution

Dec. 5, 1991
[S.J. Res. 184]

Designating the month of November 1991, as "National Accessible Housing Month".

Whereas the Congress in the Americans with Disabilities Act of 1990 found that there are 43,000,000 individuals with disabilities in this Nation;

Whereas 70 percent of all Americans will, at some time in their lives, have a temporary or permanent disability that will prevent them from climbing stairs;

Whereas 32,000,000 Americans are currently over age 65 and many older citizens acquire vision, hearing, and physical disabilities as part of the aging process;

Whereas many older Americans who acquire a disability are forced to leave their homes because the homes are no longer accessible to them;

Whereas 1 out of every 3 persons in the United States will need housing that is accessible to the disabled at some point in their lives;

Whereas the need for accessible single-family homes is growing;

Whereas the need for public information and education in the area of accessible single-family homes is increasing;

Whereas this Nation has placed a high priority on integrating Americans with disabilities into our towns and communities;

Whereas the private sector has helped increase public awareness of the need for accessible housing, as exemplified by the national public education campaign conducted by the National Easter Seal Society and Century 21 Real Estate Corporation, entitled "Easy Access Housing for Easier Living"; and

Whereas increased public awareness of the need for accessible housing should prompt the participation of civic leaders, and representatives and officials of State and local governments, in the drive to meet this need: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the month of November 1991, is designated as "National Accessible Housing Month". The President is authorized and requested to issue a proclamation calling upon the people of the United States to observe the month with appropriate programs and activities.

High-
Performance
Computing Act
of 1991.
15 USC 5501
note.*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,***SECTION 1. SHORT TITLE.**

This Act may be cited as the “High-Performance Computing Act of 1991”.

15 USC 5501.

SEC. 2. FINDINGS.

The Congress finds the following:

(1) Advances in computer science and technology are vital to the Nation's prosperity, national and economic security, industrial production, engineering, and scientific advancement.

(2) The United States currently leads the world in the development and use of high-performance computing for national security, industrial productivity, science, and engineering, but that lead is being challenged by foreign competitors.

(3) Further research and development, expanded educational programs, improved computer research networks, and more effective technology transfer from government to industry are necessary for the United States to reap fully the benefits of high-performance computing.

(4) A high-capacity and high-speed national research and education computer network would provide researchers and educators with access to computer and information resources and act as a test bed for further research and development of high-capacity and high-speed computer networks.

(5) Several Federal agencies have ongoing high-performance computing programs, but improved long-term interagency coordination, cooperation, and planning would enhance the effectiveness of these programs.

(6) A 1991 report entitled “Grand Challenges: High-Performance Computing and Communications” by the Office of Science and Technology Policy, outlining a research and development strategy for high-performance computing, provides a framework for a multiagency high-performance computing program. Such a program would provide American researchers and educators with the computer and information resources they need, and demonstrate how advanced computers, high-capacity and high-speed networks, and electronic data bases can improve the national information infrastructure for use by all Americans.

15 USC 5502.

SEC. 3. PURPOSE.

The purpose of this Act is to help ensure the continued leadership of the United States in high-performance computing and its applications by—

(1) expanding Federal support for research, development, and application of high-performance computing in order to—

(A) establish a high-capacity and high-speed National Research and Education Network;

(B) expand the number of researchers, educators, and students with training in high-performance computing and access to high-performance computing resources;

(C) promote the further development of an information infrastructure of data bases, services, access mechanisms, and research facilities available for use through the Network;

(D) stimulate research on software technology;

(E) promote the more rapid development and wider distribution of computing software tools and applications software;

(F) accelerate the development of computing systems and subsystems;

(G) provide for the application of high-performance computing to Grand Challenges;

(H) invest in basic research and education, and promote the inclusion of high-performance computing into educational institutions at all levels; and

(I) promote greater collaboration among government, Federal laboratories, industry, high-performance computing centers, and universities; and

(2) improving the interagency planning and coordination of Federal research and development on high-performance computing and maximizing the effectiveness of the Federal Government's high-performance computing efforts.

SEC. 21. DRUG AND ALCOHOL TESTING.

(a) **SHORT TITLE.**—This section may be cited as the “Civil Space Employee Testing Act of 1991”.

(b) **FINDINGS.**—The Congress finds that—

(1) alcohol abuse and illegal drug use pose significant dangers to the safety and welfare of the Nation;

(2) the success of the United States civil space program is contingent upon the safe and successful development and deployment of the many varied components of that program;

(3) the greatest efforts must be expended to eliminate the abuse of alcohol and use of illegal drugs, whether on duty or off duty, by those individuals who are involved in the positions affecting safety, security, and national security;

(4) the use of alcohol and illegal drugs has been demonstrated to adversely affect the performance of individuals, and has been proven to have been a critical factor in accidents in the workplace;

(5) the testing of uniformed personnel of the Armed Forces has shown that the most effective deterrent to abuse of alcohol and use of illegal drugs is increased testing, including random testing;

(6) adequate safeguards can be implemented to ensure that testing for abuse of alcohol or use of illegal drugs is performed in a manner which protects an individual's right of privacy, ensures that no individual is harassed by being treated differently from other individuals, and ensures that no individual's reputation or career development is unduly threatened or harmed; and

(7) rehabilitation is a critical component of any testing program for abuse of alcohol or use of illegal drugs, and should be made available to individuals, as appropriate.

(c) **TESTING PROGRAM.**—(1) The Administrator shall establish a program applicable to employees of the National Aeronautics and Space Administration whose duties include responsibility for safety-sensitive, security, or national security functions. Such program shall provide for preemployment, reasonable suspicion, random, and post-accident testing for use, in violation of applicable law or Federal regulation, of alcohol or a controlled substance. The Administrator may also prescribe regulations, as the Administrator considers appropriate in the interest of safety, security, and national security, for the conduct of periodic recurring testing of such employees for such use in violation of applicable law or Federal regulation.

Regulations.

(2) The Administrator shall, in the interest of safety, security, and national security, prescribe regulations within 18 months after the date of enactment of this Act. Such regulations shall establish a program which requires National Aeronautics and Space Administration contractors to conduct preemployment, reasonable suspicion, random, and post-accident testing of contractor employees responsible for safety-sensitive, security, or national security functions (as determined by the Administrator) for use, in violation of applicable law or Federal regulation, of alcohol or a controlled substance. The Administrator may also prescribe regulations, as the Administrator considers appropriate in the interest of safety, security, and national security, for the conduct of periodic recurring testing of such

employees for such use in violation of applicable law or Federal regulation.

(3) In prescribing regulations under the programs required by this subsection, the Administrator shall require, as the Administrator considers appropriate, the suspension, disqualification, or dismissal of any employee to which paragraph (1) or (2) applies, in accordance with the provisions of this section, in any instance where a test conducted and confirmed under this section indicates that such employee has used, in violation of applicable law or Federal regulation, alcohol or a controlled substance.

(d) PROHIBITION ON SERVICE.—(1) No individual who is determined by the Administrator under this section to have used, in violation of applicable law or Federal regulation, alcohol or a controlled substance after the date of enactment of this Act shall serve as a National Aeronautics and Space Administration employee with responsibility for safety-sensitive, security, or national security functions (as determined by the Administrator), or as a National Aeronautics and Space Administration contractor employee with such responsibility, unless such individual has completed a program of rehabilitation described in subsection (e).

(2) Any such individual determined by the Administrator under this section to have used, in violation of applicable law or Federal regulation, alcohol or a controlled substance after the date of enactment of this Act who—

(A) engaged in such use while on duty;

(B) prior to such use had undertaken or completed a rehabilitation program described in subsection (e);

(C) following such determination refuses to undertake such a rehabilitation program; or

(D) following such determination fails to complete such a rehabilitation program,

shall not be permitted to perform the duties which such individual performed prior to the date of such determination.

(e) PROGRAM FOR REHABILITATION.—(1) The Administrator shall prescribe regulations setting forth requirements for rehabilitation programs which at a minimum provide for the identification and opportunity for treatment of employees referred to in subsection (c) in need of assistance in resolving problems with the use, in violation of applicable law or Federal regulation, of alcohol or a controlled substance. Each contractor is encouraged to make such a program available to all of its employees in addition to those employees referred to in subsection (c)(2). The Administrator shall determine the circumstances under which such employees shall be required to participate in such a program. Nothing in this subsection shall preclude any National Aeronautics and Space Administration contractor from establishing a program under this subsection in cooperation with any other such contractor.

Regulations.

(2) The Administrator shall establish and maintain a rehabilitation program which at a minimum provides for the identification and opportunity for treatment of those employees of the National Aeronautics and Space Administration whose duties include responsibility for safety-sensitive, security, or national security functions who are in need of assistance in resolving problems with the use of alcohol or controlled substances.

(f) PROCEDURES FOR TESTING.—In establishing the programs required under subsection (c), the Administrator shall develop requirements which shall—

(1) promote, to the maximum extent practicable, individual privacy in the collection of specimen samples;

(2) with respect to laboratories and testing procedures for controlled substances, incorporate the Department of Health and Human Services scientific and technical guidelines dated April 11, 1988, and any subsequent amendments thereto, including mandatory guidelines which—

(A) establish comprehensive standards for all aspects of laboratory controlled substances testing and laboratory procedures to be applied in carrying out this section, including standards which require the use of the best available technology for ensuring the full reliability and accuracy of controlled substances tests and strict procedures governing the chain of custody of specimen samples collected for controlled substances testing;

(B) establish the minimum list of controlled substances for which individuals may be tested; and

(C) establish appropriate standards and procedures for periodic review of laboratories and criteria for certification and revocation of certification of laboratories to perform controlled substances testing in carrying out this section;

(3) require that all laboratories involved in the controlled substances testing of any individual under this section shall have the capability and facility, at such laboratory, of performing screening and confirmation tests;

(4) provide that all tests which indicate the use, in violation of applicable law or Federal regulation, of alcohol or a controlled substance by any individual shall be confirmed by a scientifically recognized method of testing capable of providing quantitative data regarding alcohol or a controlled substance;

(5) provide that each specimen sample be subdivided, secured, and labelled in the presence of the tested individual and that a portion thereof be retained in a secure manner to prevent the possibility of tampering, so that in the event the individual's confirmation test results are positive the individual has an opportunity to have the retained portion assayed by a confirmation test done independently at a second certified laboratory if the individual requests the independent test within 3 days after being advised of the results of the initial confirmation test;

(6) ensure appropriate safeguards for testing to detect and quantify alcohol in breath and body fluid samples, including urine and blood, through the development of regulations as may be necessary and in consultation with the Department of Health and Human Services;

(7) provide for the confidentiality of test results and medical information of employees; and

(8) ensure that employees are selected for tests by nondiscriminatory and impartial methods, so that no employee is harassed by being treated differently from other employees in similar circumstances.

(g) EFFECT ON OTHER LAWS AND REGULATIONS.—(1) No State or local government shall adopt or have in effect any law, rule, regulation, ordinance, standard, or order that is inconsistent with the regulations promulgated under this section.

(2) Nothing in this section shall be construed to restrict the discretion of the Administrator to continue in force, amend, or further supplement any regulations issued before the date of enact-

ment of this Act that govern the use of alcohol and controlled substances by National Aeronautics and Space Administration employees with responsibility for safety-sensitive, security, and national security functions (as determined by the Administrator), or by National Aeronautics and Space Administration contractor employees with such responsibility.

(h) **DEFINITION.**—For the purposes of this section, the term “controlled substance” means any substance under section 102(6) of the Controlled Substances Act (21 U.S.C. 802(6)) specified by the Administrator.

102d Congress

An Act

To establish the Silvio O. Conte National Fish and Wildlife Refuge along the Connecticut River, and for other purposes.

Dec. 11, 1991

[H.R. 794]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

**TITLE I—SILVIO O. CONTE NATIONAL FISH AND WILDLIFE
REFUGE ACT**

Silvio O. Conte
National Fish
and Wildlife
Refuge Act.
16 USC 668dd
note.

SECTION 101. SHORT TITLE.

This title may be cited as the “Silvio O. Conte National Fish and Wildlife Refuge Act”.

SEC. 102. FINDINGS.

The Congress finds and declares the following:

(1) The late Silvio Conte was a long-time champion of the preservation of natural resources, including the Connecticut River, shepherding through Congress legislation meant to restore the river and its wildlife to health.

(2) The Connecticut River and its riparian lands are unique environmental resources which provide habitat for significant anadromous, migratory, and resident fish; migratory waterfowl; and other wildlife species, including such threatened or endangered species as the shortnosed sturgeon and bald eagle.

(3) Federal, State, and local governments have spent over \$600,000,000 to clean up the Connecticut River and improve the quality of its fish and wildlife habitat, resulting in the re-establishment or improvement of the populations of many species such as the Atlantic salmon, American shad, bald eagle, and peregrine falcon.

(4) The Connecticut River valley is home to over two million people, and accordingly the river and riparian lands are of great value for environmental education and natural resource based recreation.

(5) The Connecticut River valley is threatened with spoilation, removal from public access, and ecological downgrading and is a significant source of energy and means of commerce for New England.

(6) Despoiling the Connecticut River and its riparian lands will result in the permanent loss of unique social, educational, and environmental assets and will devalue the significant Federal, State and local investments made to clean up the river.

SEC. 103. DEFINITIONS.

For the purposes of this Act—

(1) the term “affected States” means the Commonwealth of Massachusetts, and the States of Vermont, New Hampshire, and Connecticut;

(2) the term "refuge" means the Silvio Conte National Fish and Wildlife Refuge established under section 106 of this Act;

SEC. 104. PURPOSES.

The purposes for which the refuge is established are—

(1) to conserve, protect, and enhance the Connecticut River valley populations of Atlantic salmon, American shad, river herring, shortnosed sturgeon, bald eagles, peregrine falcons, osprey, black ducks, and other native species of plants, fish, and wildlife;

(2) to conserve, protect, and enhance the natural diversity and abundance of plant, fish, and wildlife species and the ecosystems upon which these species depend within the refuge;

(3) to protect species listed as endangered or threatened, or identified as candidates for listing, pursuant to the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.);

(4) to restore and maintain the chemical, physical, and biological integrity of wetlands and other waters within the refuge;

(5) to fulfill the international treaty obligations of the United States relating to fish and wildlife and wetlands; and

(6) to provide opportunities for scientific research, environmental education, and fish and wildlife-oriented recreation and access to the extent compatible with the other purposes stated in this section.

SEC. 105. SELECTION OF LANDS.

Within three years after the date of the enactment of this Act, the Secretary shall—

An Act

Dec. 11, 1991
[H.R. 3881]

To expand the boundaries of Stones River National Battlefield, Tennessee, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. STONES RIVER NATIONAL BATTLEFIELD BOUNDARY CHANGE.

The Act entitled “An Act to amend the boundaries of Stones River National Battlefield, Tennessee, and for other purposes”, approved December 23, 1987 (101 Stat. 1433), is amended as follows:

16 USC 426n.

(1) In the first sentence of section 1(a) strike “numbered 327/80,001, and dated March 1987” and insert “numbered 327/80,004B, and dated November 1991”.

(2) In section 1(b), insert “(1)” after “LANDS.—”, and add at the end thereof the following:

“(2)(A) Before acquiring any lands under this Act where the surface of such lands has been substantially disturbed or which are believed by the Secretary to contain hazardous substances, the Secretary shall prepare a report on the potential hazardous substances associated with such lands and the estimated cost of restoring such lands, together with a plan of the remedial measures necessary to allow acquisition of such lands to proceed in a timely manner, consistent with the requirements of subparagraph (B). The Secretary shall submit such report to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Interior and Insular Affairs of the United States House of Representatives.

“(B) The Secretary shall not acquire any lands under this Act if the Secretary determines that such lands, or any portion thereof, have become contaminated with hazardous substances (as defined in the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601)).

“(3)(A) Except for property which the Secretary determines to be necessary for the purposes of administration, development, access, or public use, an owner of improved property which is used solely for noncommercial residential purposes on the date of its acquisition by the Secretary may retain, as a condition of such acquisition, a right of use and occupancy of the property for such residential purposes. The right retained may be for a definite term which shall not exceed 25 years or, in lieu thereof, for a term ending at the death of the owner or the death of the spouse, whichever is later. The owner shall elect the term to be retained. The Secretary shall pay the owner the fair market value of the property on the date of such acquisition, less the fair market value of the term retained by the owner.

“(B) Any right of use and occupancy retained pursuant to this section may, during its existence, be conveyed or transferred, but all rights of use and occupancy shall be subject to such terms and conditions as the Secretary deems appropriate to assure the use of

the property in accordance with the purposes of this Act. Upon his determination that the property, or any portion thereof, has ceased to be so used in accordance with such terms and conditions, the Secretary may terminate the right of use and occupancy by tendering to the holder of such right an amount equal to the fair market value, as of the date of the tender, of that portion of the right which remains unexpired on the date of termination.

“(C) This paragraph applies only to owners who have reached the age of majority.

“(D) As used in this paragraph, the term ‘improved property’ means a detached, year-round noncommercial residential dwelling, the construction of which was begun before the date of enactment of this paragraph, together with so much of the land on which the dwelling is situated, such land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures accessory to the dwelling which are situated on the land so designated.”.

(3) Section 2 is amended to read as follows:

“SEC. 2. AGREEMENT.

16 USC 426o.

“The Secretary is authorized to enter into an agreement with the city of Murfreesboro, Tennessee, containing each of the following provisions—

“(1) If the city agrees to acquire sufficient interest in land to construct a trail linking the battlefield with Fortress Rosecrans, to construct such trail, and to operate and maintain the trail in accordance with standards approved by the Secretary, the Secretary shall (A) transfer to the city the funds available to the Secretary for the acquisition of such lands and for the construction of the trail, and (B) provide technical assistance to the city and to Rutherford County for the purpose of development and planning of the trail.

“(2) The Secretary shall agree to accept the transfer by donation from the city of the remnants of Fortress Rosecrans at Old Fort Park, and following such transfer, to preserve and interpret the fortress as part of the battlefield.

“(3) In administering the Fortress Rosecrans, the Secretary is authorized to enter a cooperative agreement with the city of Murfreesboro, Tennessee, for the rendering, on a nonreimbursable basis, of rescue, firefighting, and law enforcement services and cooperative assistance by nearby law enforcement and fire preventive agencies.”.

(4) Redesignate section 3 as section 4, and insert the following new section after section 2:

16 USC 426p.

“SEC. 3. PLANNING.

16 USC 426o-1.

“(a) **PREPARATION OF PLAN FOR REDOUBT BRANNAN.**—The Secretary shall, on or before February 1, 1992, prepare a plan for the preservation and interpretation of Redoubt Brannan.

“(b) **UPDATE OF GENERAL MANAGEMENT PLAN.**—The Secretary shall, on or before March 31, 1993, update the General Management Plan for the Stones River National Battlefield.

“(c) **TECHNICAL ASSISTANCE.**—The Secretary is authorized to provide technical assistance to the city and to Rutherford County in the development of zoning ordinances and other land use controls that

note.

This title may be cited as the “Soviet Nuclear Threat Reduction Act of 1991”.

PART B—FINDINGS AND PROGRAM AUTHORITY

SEC. 211. NATIONAL DEFENSE AND SOVIET WEAPONS DESTRUCTION.

(a) FINDINGS.—The Congress finds—

(1) that Soviet President Gorbachev has requested Western help in dismantling nuclear weapons, and President Bush has proposed United States cooperation on the storage, transportation, dismantling, and destruction of Soviet nuclear weapons;

(2) that the profound changes underway in the Soviet Union pose three types of danger to nuclear safety and stability, as follows: (A) ultimate disposition of nuclear weapons among the Soviet Union, its republics, and any successor entities that is not conducive to weapons safety or to international stability; (B) seizure, theft, sale, or use of nuclear weapons or components; and (C) transfers of weapons, weapons components, or weapons know-how outside of the territory of the Soviet Union, its republics, and any successor entities, that contribute to world-wide proliferation; and

(3) that it is in the national security interests of the United States (A) to facilitate on a priority basis the transportation, storage, safeguarding, and destruction of nuclear and other weapons in the Soviet Union, its republics, and any successor

entities, and (B) to assist in the prevention of weapons proliferation.

(b) **EXCLUSIONS.**—United States assistance in destroying nuclear and other weapons under this title may not be provided to the Soviet Union, any of its republics, or any successor entity unless the President certifies to the Congress that the proposed recipient is committed to—

(1) making a substantial investment of its resources for dismantling or destroying such weapons;

(2) forgoing any military modernization program that exceeds legitimate defense requirements and forgoing the replacement of destroyed weapons of mass destruction;

(3) forgoing any use of fissionable and other components of destroyed nuclear weapons in new nuclear weapons;

(4) facilitating United States verification of weapons destruction carried out under section 212;

(5) complying with all relevant arms control agreements; and

(6) observing internationally recognized human rights, including the protection of minorities.

SEC. 212. AUTHORITY FOR PROGRAM TO FACILITATE SOVIET WEAPONS DESTRUCTION.

(a) **IN GENERAL.**—Notwithstanding any other provision of law, the President, consistent with the findings stated in section 211, may establish a program as authorized in subsection (b) to assist Soviet weapons destruction. Funds for carrying out this program shall be provided as specified in part C.

(b) **TYPE OF PROGRAM.**—The program under this section shall be limited to cooperation among the United States, the Soviet Union, its republics, and any successor entities to (1) destroy nuclear weapons, chemical weapons, and other weapons, (2) transport, store, disable, and safeguard weapons in connection with their destruction, and (3) establish verifiable safeguards against the proliferation of such weapons. Such cooperation may involve assistance in planning and in resolving technical problems associated with weapons destruction and proliferation. Such cooperation may also involve the funding of critical short-term requirements related to weapons destruction and should, to the extent feasible, draw upon United States technology and United States technicians.

PART C—ADMINISTRATIVE AND FUNDING AUTHORITIES

determines essential for the readiness of the Armed Forces, including amounts for—

- (A) training activities; and
- (B) depot maintenance activities.

(b) DEPARTMENT OF DEFENSE.—The Department of Defense shall serve as the executive agent for any program established under part B.

(c) REIMBURSEMENT OF OTHER AGENCIES.—The Secretary of Defense may reimburse other United States Government departments and agencies under this section for costs of participation, as directed by the President, only in a program established under part B.

(d) CHARGES AGAINST FUNDS.—The value of any material from existing stocks and inventories of the Department of Defense, or any other United States Government department or agency, that is used in providing assistance under part B to reduce the Soviet military threat may not be charged against funds available pursuant to subsection (a) to the extent that the material contributed is directed by the President to be contributed without subsequent replacement.

(e) DETERMINATION BY DIRECTOR OF OMB.—No amount may be obligated for the program under part B unless expenditures for that program have been determined by the Director of the Office of Management and Budget to be counted against the defense category of the discretionary spending limits for fiscal year 1992 (as defined in section 601(a)(2) of the Congressional Budget Act of 1974) for purposes of part C of the Balanced Budget and Emergency Deficit Control Act of 1985.

SEC. 222. REPAYMENT ARRANGEMENTS.

(a) REIMBURSEMENT ARRANGEMENTS.—Assistance provided under part B to the Soviet Union, any of its republics, or any successor entity shall be conditioned, to the extent that the President determines to be appropriate after consultation with the recipient government, upon the agreement of the recipient government to reimburse the United States Government for the cost of such assistance from natural resources or other materials available to the recipient government.

(b) NATURAL RESOURCES, ETC.—The President shall encourage the satisfaction of such reimbursement arrangements through the provision of natural resources, such as oil and petroleum products and critical and strategic materials, and industrial goods. Materials received by the United States Government pursuant to this section that are suitable for inclusion in the Strategic Petroleum Reserve or the National Defense Stockpile may be deposited in the reserve or stockpile without reimbursement. TITLE III—EMERGENCY AIRLIFT AND OTHER SUPPORT

SEC. 301. AUTHORITY TO TRANSFER CERTAIN FUNDS TO PROVIDE EMERGENCY AIRLIFT AND OTHER SUPPORT.

(a) FINDINGS.—The Congress finds—

- (1) that political and economic conditions within the Soviet Union and its republics are unstable and are likely to remain so for the foreseeable future;
- (2) that these conditions could lead to the return of antidemocratic forces in the Soviet Union;
- (3) that one of the most effective means of preventing such a situation is likely to be the immediate provision of humanitarian assistance; and
- (4) that should this need arise, the United States should have funds readily available to provide for the transport of such assistance to the Soviet Union, its republics, and any successor entities.

(b) AUTHORITY TO TRANSFER CERTAIN FUNDS.—

- (1) **IN GENERAL.**—Notwithstanding any other provision of law, the Secretary of Defense, at the direction of the President, may during fiscal year 1992, to the extent provided in an appropriations Act or joint resolution, transfer to the appropriate defense accounts sufficient funds, not to exceed \$100,000,000, from funds described in paragraph (3) in order to transport, by military or commercial means, food, medical supplies, and other types of

humanitarian assistance to the Soviet Union, its republics, or any successor entities—with the consent of the relevant republic government or independent successor entity—in order to address emergency conditions which may arise in such republic or successor entity, as determined by the President. As used in this subsection, the term “humanitarian assistance” does not include construction equipment, including tractors, scrapers, loaders, graders, bulldozers, dumptrucks, generators, and compressors.

(2) **REPORTS BY THE SECRETARY OF STATE.**—The Secretary of State shall promptly report to the President regarding any emergency conditions which may require such humanitarian assistance. The Secretary's report shall include an estimate of the extent of need for such assistance, discuss whether the consent of the relevant republic government or independent successor entity has been given for the delivery of such assistance, describe steps other nations and organizations are prepared to take in response to an emergency, and discuss the foreign policy implications, if any, of providing such assistance.

(3) **SOURCE OF FUNDS.**—Any funds which are transferred pursuant to this subsection shall be drawn from amounts appropriated to the Department of Defense for fiscal year 1992 or from balances in working capital accounts established under section 2208 of title 10, United States Code.

(4) **EMERGENCY REQUIREMENTS.**—The Congress designates all funds transferred pursuant to this section as “emergency requirements” for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985. Notwithstanding any other provision of law, funds shall be available for transfer pursuant to this section only if, not later than the date of enactment of the appropriations Act or joint resolution that makes funds available for transfer pursuant to this section, the President, in a single designation, designates the entire amount of funds made available for such transfer by that appropriations Act or joint resolution to be “emergency requirements” for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985.

(c) **REPAYMENT ARRANGEMENTS.**—

(1) **REIMBURSEMENT ARRANGEMENTS.**—Assistance provided under subsection (b) to the Soviet Union, any of its republics, or any successor entity shall be conditioned, to the extent that the President determines to be appropriate after consultation with the recipient government, upon the agreement of the recipient government to reimburse the United States Government for the cost of such assistance from natural resources or other materials available to the recipient government.

(2) **NATURAL RESOURCES, ETC.**—The President shall encourage the satisfaction of such reimbursement arrangements through the provision of natural resources, such as oil and petroleum products and critical and strategic materials, and industrial goods. Materials received by the United States Government pursuant to this subsection that are suitable for inclusion in the Strategic Petroleum Reserve or the National Defense Stockpile may be deposited in the reserve or stockpile without reimbursement. Other material and services received may be sold or traded on the domestic or international market with the proceeds to be deposited in the General Fund of the Treasury.

(d) **DIRE EMERGENCY SUPPLEMENTAL APPROPRIATIONS.**—It is the sense of the Senate that the committee of conference on House Joint Resolution 157 should consider providing the necessary authority in the conference agreement for the Secretary of Defense to transfer funds pursuant to this title.

SEC. 302. REPORTING REQUIREMENTS.

(a) **PRIOR NOTICE.**—Before any funds are transferred for the purposes authorized in section 301(b), the President shall notify the Committees on Armed Services and the Committees on Appropriations of the Senate and the House of Representatives of the account, budget activity, and particular program or programs from which the transfer is planned to be made and the amount of the transfer.

(b) **REPORTS TO THE CONGRESS.**—Within ten days after directing the Secretary of Defense to transfer funds pursuant to section 301(b), the President shall provide a report to the Committees on Armed Services of the Senate and House of Representatives, the Committees on Appropriations of the Senate and House of Representatives, and the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives. SEC. 200. FINDING OF DIRE EMERGENCY CONDITIONS.—The Congress finds that—

(a) the President has designated and requested the Congress to designate over \$1,140,000,000 in 1991 international assistance funds to meet emergency needs in foreign lands;

(b) natural disasters (including floods, droughts, tornadoes, hurricanes, earthquakes, freezes, and typhoons) have occurred in the United States and its territories causing loss of life, human suffering, loss of income, and property loss or damage with dire emergency financial situations;

(c) since October 1990, there have been 44 presidentially-declared disasters and 89 disasters declared by the Secretary of Agriculture affecting every area of the Nation in almost every State for which Federal funds are not available to meet emergency needs, resulting in calls for the National Guard and other assistance;

(d) as a consequence of these disasters, millions of acres of land are or were under water, millions of acres of farm land are not able to be planted, and highways, dams, roads, and bridges have not been repaired. Many of the people in communities, counties, States, and many private businesses have been dangerously affected, and the local authorities in many cases are unable to meet the financial costs; and

(e) the combination of the effects of these conditions and the current recession constitutes a dire emergency situation (8,582,000 people are unemployed, total employment has declined by over 1,400,000 jobs in the last year, over 7,500 businesses are failing each month, and foreign purchases of United States land and companies are increasing) which will, if not corrected by increased production, necessitate the need for a Job Creation Bill similar to what was enacted in 1983.

SEC. 201. No part of any appropriation contained in this joint resolution shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

CONGRESSIONAL DESIGNATION OF EMERGENCY

SEC. 202. Although the President has only designated portions of the funds in this joint resolution pertaining to the incremental costs of Desert Shield/Desert Storm and certain Federal Emergency Management Agency costs as “emergency requirements”, the Congress believes that the same or higher priority should be given to helping American people recover from natural disasters and other emergency situations as has been given to foreign aid “emergency” needs. The Congress therefore designates all funds in Titles I and II of this joint resolution as “emergency requirements” for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985.

RESTRICTIONS ON ASSISTANCE FOR KENYA

SEC. 203. (a) RESTRICTIONS.—None of the funds appropriated by this joint resolution or any other provision of law under the heading “Economic Support Fund” or “Foreign Military Financing Program” may be made available for Kenya unless the President

determines, and so certifies to the Congress, that the Government of Kenya—

(1) has released all political detainees and has ended the prosecution of individuals for the peaceful expression of their political beliefs;

(2) has ceased the physical abuse or mistreatment of prisoners;

(3) has restored judicial independence;

(4) has taken significant steps toward respecting human rights and fundamental freedoms, including the freedom of thought, conscience, belief, expression, and the freedom to advocate the establishment of political parties and organizations; and

(5) has implemented the principle of freedom of movement, including the right of all citizens of Kenya to leave and return to their country.

(b) PROHIBITION.—

(1) **LIMITATION ON NEW PROJECT ASSISTANCE.**—During fiscal year 1992, funds appropriated by this or any other Act to carry out the provisions of chapters 1 and 10 of part I of the Foreign Assistance Act of 1961 that are provided for assistance to the Government of Kenya for new projects shall be made available only for new projects—

(A) that promote basic human needs, directly address poverty, enhance employment generation, and address environmental concerns; or

(B) to improve the performance of democratic institutions, or otherwise promote the objectives being sought in the certification required by subsection (a).

(2) **CONGRESSIONAL NOTIFICATION.**—During fiscal year 1992, none of the funds appropriated by this or any other Act to carry out the provisions of chapters 1 and 10 of the Foreign Assistance Act of 1961 shall be obligated unless the Committees on Appropriations are notified at least 15 days in advance in accordance with the regular notification procedures of those Committees.

(3) **APPLICABILITY.**—The provisions of paragraphs (1) and (2) of this subsection shall cease to apply 30 days after the certification described in subsection (a) is made to the Congress.

(c) **DATE OF AVAILABILITY OF FUNDS.**—None of the funds appropriated by this joint resolution or any other provision of law under the heading “Economic Support Fund” or “Foreign Military Financing Program” may be obligated or expended for Kenya until 30 days after the certification described in subsection (a) is made to the Congress.

SEC. 204. SENSE OF THE SENATE REGARDING UNITED STATES RECOGNITION OF UKRAINIAN INDEPENDENCE.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) On August 24, 1991, the democratically elected Ukrainian parliament declared Ukrainian independence and the creation of an independent, democratic state—Ukraine.

(2) That declaration reflects the desire of the people of Ukraine for freedom and independence following long years of communist oppression, collectivization, and centralization.

(3) On December 1, 1991, a republic-wide referendum will be held in Ukraine to confirm the August 24, 1991, declaration of independence.

(4) Ukraine is pursuing a peaceful and democratic path to independence and has pledged to comply with the Helsinki Final Act and other documents of the Conference on Security and Cooperation in Europe.

(5) Ukraine and Russia signed an agreement on August 29, 1991, recognizing each other's rights to state independence and affirming each other's territorial integrity.

(6) Ukraine, a nation of 52,000,000 people, with its own distinct linguistic, cultural, and religious traditions, is determined to take its place among the family of free and democratic nations of the world.

(7) The Congress has traditionally supported the rights of people to peaceful and democratic self-determination.

(8) As recognized in Article VIII of the Helsinki Final Act of the Conference on Security and Cooperation in Europe, "all peoples always have the right, in full freedom, to determine, when and as they wish, their internal and external political status, without external interference, and to pursue as they wish their political, economic, social and cultural development".

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the President—

(1) should recognize Ukraine's independence and undertake steps toward the establishment of full diplomatic relations with Ukraine should the December 1, 1991, referendum confirm Ukrainian parliament's independence declaration; and

(2) should use United States assistance, trade, and other programs to support the Government of Ukraine and encourage the further development of democracy and a free market in Ukraine.

Public Law 102-231
102d Congress

An Act

Dec. 12, 1991
[H.R. 1476]

To provide for the divestiture of certain properties of the San Carlos Indian Irrigation Project in the State of Arizona, and for other purposes.

San Carlos
Indian Irrigation
Project
Divestiture
Act of 1991.
Energy.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "San Carlos Indian Irrigation Project Divestiture Act of 1991".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress finds the following:

(1) To provide water for irrigating, first, land allotted to Pima Indians on the Gila River Reservation and, second, other lands in public or private ownership which, in the opinion of the Secretary of the Interior, could be served without diminishing the supply necessary for the Indian lands, Congress, by the Act of June 7, 1924, authorized construction of Coolidge Dam and creation of San Carlos Reservoir on the Gila River in Arizona.

(2) The Secretary, through the San Carlos Irrigation Project administered by the Bureau of Indian Affairs, operates Coolidge Dam and approximately one hundred irrigation wells to provide water to SCIP lands on the Gila River Reservation and to the SCIP lands outside the reservation which is within the San Carlos Irrigation and Drainage District.

(3) A hydroelectric power system was developed at Coolidge Dam pursuant to the Act of March 7, 1928, as amended, to generate power incidental to the use of San Carlos Reservoir for storing irrigation water. The system's primary purpose was to provide power for irrigation pumping on SCIP lands and for BIA agency and school purposes and for irrigation pumping by Apache Indians on the San Carlos Reservation.

(4) SCIP's transmission and distribution system, which has been extended to domestic and commercial users on SCIP lands and to other homes and businesses not on SCIP lands, currently provides service within portions of Pinal, Pima, Maricopa, Graham, and Gila Counties covering approximately 3,000 square miles.

(5) Unexpectedly low and erratic Gila River flows into San Carlos Reservoir since 1928 have limited power generation at Coolidge Dam, causing SCIP to secure additional power through contracts with the Western Area Power Administration, the Salt River Project, and Arizona Public Service Company to meet its customers' needs. Since October 1983, when a flood damaged the switchyard at Coolidge Dam, no power has been generated at the dam.

(6) Much of SCIP's power system needs modernization, with some facilities over sixty years old, well past their design life. However, Federal budgetary and administrative policies have

impaired long-range, consistent planning and construction necessary for efficient SCIP operation and maintenance and for timely replacement of obsolete or worn out facilities.

(7) Under current repayment terms, the shared obligation of the San Carlos Irrigation and Drainage District and the Gila River Indian Community to repay the United States for construction of SCIP's hydroelectric power system and certain improvements thereto will not be met until after the year 2010.

(8) The Gila River Indian Community, the San Carlos Apache Indian Tribe, and the San Carlos Irrigation and Drainage District have petitioned the Congress to authorize the Secretary to divest the United States of ownership and responsibility for SCIP's electric power transmission and distribution systems, to settle the outstanding debt owned by the United States in connection with the construction of those systems, to apportion equitably among them SCIP's allocation of Federal power resources, and to take such other actions as necessary to carry out divestiture.

(9) On September 15, 1989, the Gila River Indian Community and the Arizona Public Service Company, and the San Carlos Irrigation and Drainage District, the Arizona Public Service Company, Trico Electric Cooperative, Inc., and Electrical District No. 2 of Pinal County, Arizona, signed Statements of Principles by which divestiture would be implemented between and among them subsequent to enactment of Federal enabling authorities as provided in this Act. The same entities subsequently signed extensions of the Statements of Principles, as amended.

(b) PURPOSE.—The purposes of this Act are—

(1) to authorize the Secretary to divest the United States of ownership of the electric transmission and distribution system of the San Carlos Irrigation Project;

(2) to provide for the settlement of the debt obligations owed to the United States by the Gila River Indian Community and the San Carlos Irrigation and Drainage District in connection with the construction of the electric transmission and distribution system;

(3) to provide for the reallocation of power resources currently allocated to SCIP from Federal hydroelectric power sources;

(4) to provide funds for the disposal of hazardous waste materials associated with those areas and components of the SCIP electric system transferred to the Gila River Indian Community and the San Carlos Apache Tribe and with those areas and components retained by the Secretary;

(5) to facilitate the implementation of divestiture in an orderly and economic manner, consistent with the desire and intent of the parties to the Statements of Principles and with due regard for the rights and interests of current SCIP employees; and

(6) to assist the Gila River Indian Community and the San Carlos Apache Tribe in their efforts to achieve greater self-determination and economic self-sufficiency.

Dec. 12, 1991
[H.R. 3595]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Medicaid Voluntary Contribution and Provider-Specific Tax Amendments of 1991".

SEC. 2. PROHIBITION ON USE OF VOLUNTARY CONTRIBUTIONS, AND LIMITATION ON THE USE OF PROVIDER-SPECIFIC TAXES TO OBTAIN FEDERAL FINANCIAL PARTICIPATION UNDER MEDICAID.

(a) IN GENERAL.—Section 1903 of the Social Security Act (42 U.S.C. 1396b) is amended by adding at the end the following new subsection.

"(w)(1)(A) Notwithstanding the previous provisions of this section, for purposes of determining the amount to be paid to a State (as defined in paragraph (7)(D)) under subsection (a)(1) for quarters in any fiscal year, the total amount expended during such fiscal year as medical assistance under the State plan (as determined without regard to this subsection) shall be reduced by the sum of any revenues received by the State (or by a unit of local government in the State) during the fiscal year—

"(i) from provider-related donations (as defined in paragraph (2)(A)), other than—

"(I) bona fide provider-related donations (as defined in paragraph (2)(B)), and

"(II) donations described in paragraph (2)(C);

"(ii) from health care related taxes (as defined in paragraph (3)(A)), other than broad-based health care related taxes (as defined in paragraph (3)(B));

"(iii) from a broad-based health care related tax, if there is in effect a hold harmless provision (described in paragraph (4)) with respect to the tax; or

"(iv) only with respect to State fiscal years (or portions thereof) occurring on or after January 1, 1992, and before October 1, 1995, from broad-based health care related taxes to the extent the amount of such taxes collected exceeds the limit established under paragraph (5).

"(B) Notwithstanding the previous provisions of this section, for purposes of determining the amount to be paid to a State under subsection (a)(7) for all quarters in a Federal fiscal year (beginning with fiscal year 1993), the total amount expended during the fiscal year for administrative expenditures under the State plan (as deter-

mined without regard to this subsection) shall be reduced by the sum of any revenues received by the State (or by a unit of local government in the State) during such quarters from donations described in paragraph (2)(C), to the extent the amount of such donations exceeds 10 percent of the amounts expended under the State plan under this title during the fiscal year for purposes described in paragraphs (2), (3), (4), (6), and (7) of subsection (a).

“(C)(i) Except as otherwise provided in clause (ii), subparagraph (A)(i) shall apply to donations received on or after January 1, 1992.

“(ii) Subject to the limits described in clause (iii) and subparagraph (E), subparagraph (A)(i) shall not apply to donations received before the effective date specified in subparagraph (F) if such donations are received under programs in effect or as described in State plan amendments or related documents submitted to the Secretary by September 30, 1991, and applicable to State fiscal year 1992, as demonstrated by State plan amendments, written agreements, State budget documentation, or other documentary evidence in existence on that date.

“(iii) In applying clause (ii) in the case of donations received in State fiscal year 1993, the maximum amount of such donations to which such clause may be applied may not exceed the total amount of such donations received in the corresponding period in State fiscal year 1992 (or not later than 5 days after the last day of the corresponding period).

“(D)(i) Except as otherwise provided in clause (ii), subparagraphs (A)(ii) and (A)(iii) shall apply to taxes received on or after January 1, 1992.

“(ii) Subparagraphs (A)(ii) and (A)(iii) shall not apply to impermissible taxes (as defined in clause (iii)) received before the effective date specified in subparagraph (F) to the extent the taxes (including the tax rate or base) were in effect, or the legislation or regulations imposing such taxes were enacted or adopted, as of November 22, 1991.

“(iii) In this subparagraph and subparagraph (E), the term ‘impermissible tax’ means a health care related tax for which a reduction may be made under clause (ii) or (iii) of subparagraph (A).

“(E)(i) In no case may the total amount of donations and taxes permitted under the exception provided in subparagraphs (C)(ii) and (D)(ii) for the portion of State fiscal year 1992 occurring during calendar year 1992 exceed the limit under paragraph (5) minus the total amount of broad-based health care related taxes received in the portion of that fiscal year.

“(ii) In no case may the total amount of donations and taxes permitted under the exception provided in subparagraphs (C)(ii) and (D)(ii) for State fiscal year 1993 exceed the limit under paragraph (5) minus the total amount of broad-based health care related taxes received in that fiscal year.

Effective dates.

“(F) In this paragraph in the case of a State—

“(i) except as provided in clause (iii), with a State fiscal year beginning on or before July 1, the effective date is October 1, 1992,

“(ii) except as provided in clause (iii), with a State fiscal year that begins after July 1, the effective date is January 1, 1993, or

“(iii) with a State legislature which is not scheduled to have a regular legislative session in 1992, with a State legislature which is not scheduled to have a regular legislative session in

1993, or with a provider-specific tax enacted on November 4, 1991, the effective date is July 1, 1993.

“(2)(A) In this subsection (except as provided in paragraph (6)), the term ‘provider-related donation’ means any donation or other voluntary payment (whether in cash or in kind) made (directly or indirectly) to a State or unit of local government by—

“(i) a health care provider (as defined in paragraph (7)(B)),

“(ii) an entity related to a health care provider (as defined in paragraph (7)(C)), or

“(iii) an entity providing goods or services under the State plan for which payment is made to the State under paragraph (2), (3), (4), (6), or (7) of subsection (a).

“(B) For purposes of paragraph (1)(A)(i)(I), the term ‘bona fide provider-related donation’ means a provider-related donation that has no direct or indirect relationship (as determined by the Secretary) to payments made under this title to that provider, to providers furnishing the same class of items and services as that provider, or to any related entity, as established by the State to the satisfaction of the Secretary. The Secretary may by regulation specify types of provider-related donations described in the previous sentence that will be considered to be bona fide provider-related donations.

“(C) For purposes of paragraph (1)(A)(i)(II), donations described in this subparagraph are funds expended by a hospital, clinic, or similar entity for the direct cost (including costs of training and of preparing and distributing outreach materials) of State or local agency personnel who are stationed at the hospital, clinic, or entity to determine the eligibility of individuals for medical assistance under this title and to provide outreach services to eligible or potentially eligible individuals.

“(3)(A) In this subsection (except as provided in paragraph (6)), the term ‘health care related tax’ means a tax (as defined in paragraph (7)(F)) that—

“(i) is related to health care items or services, or to the provision of, the authority to provide, or payment for, such items or services, or

“(ii) is not limited to such items or services but provides for treatment of individuals or entities that are providing or paying for such items or services that is different from the treatment provided to other individuals or entities.

In applying clause (i), a tax is considered to relate to health care items or services if at least 85 percent of the burden of such tax falls on health care providers.

“(B) In this subsection, the term ‘broad-based health care related tax’ means a health care related tax which is imposed with respect to a class of health care items or services (as described in paragraph (7)(A)) or with respect to providers of such items or services and which, except as provided in subparagraphs (D) and (E)—

“(i) is imposed at least with respect to all items or services in the class furnished by all non-Federal, nonpublic providers in the State (or, in the case of a tax imposed by a unit of local government, the area over which the unit has jurisdiction) or is imposed with respect to all non-Federal, nonpublic providers in the class; and

“(ii) is imposed uniformly (in accordance with subparagraph (C)).

“(C)(i) Subject to clause (ii), for purposes of subparagraph (B)(ii), a tax is considered to be imposed uniformly if—

“(I) in the case of a tax consisting of a licensing fee or similar tax on a class of health care items or services (or providers of such items or services), the amount of the tax imposed is the same for every provider providing items or services within the class;

“(II) in the case of a tax consisting of a licensing fee or similar tax imposed on a class of health care items or services (or providers of such services) on the basis of the number of beds (licensed or otherwise) of the provider, the amount of the tax is the same for each bed of each provider of such items or services in the class;

“(III) in the case of a tax based on revenues or receipts with respect to a class of items or services (or providers of items or services) the tax is imposed at a uniform rate for all items and services (or providers of such items or services) in the class on all the gross revenues or receipts, or net operating revenues, relating to the provision of all such items or services (or all such providers) in the State (or, in the case of a tax imposed by a unit of local government within the State, in the area over which the unit has jurisdiction); or

“(IV) in the case of any other tax, the State establishes to the satisfaction of the Secretary that the tax is imposed uniformly.

“(ii) Subject to subparagraphs (D) and (E), a tax imposed with respect to a class of health care items and services is not considered to be imposed uniformly if the tax provides for any credits, exclusions, or deductions which have as their purpose or effect the return to providers of all or a portion of the tax paid in a manner that is inconsistent with subclauses (I) and (II) of subparagraph (E)(ii) or provides for a hold harmless provision described in paragraph (4).

“(D) A tax imposed with respect to a class of health care items and services is considered to be imposed uniformly—

“(i) notwithstanding that the tax is not imposed with respect to items or services (or the providers thereof) for which payment is made under a State plan under this title or title XVIII, or

“(ii) in the case of a tax described in subparagraph (C)(i)(III), notwithstanding that the tax provides for exclusion (in whole or in part) of revenues or receipts from a State plan under this title or title XVIII.

“(E)(i) A State may submit an application to the Secretary requesting that the Secretary treat a tax as a broad-based health care related tax, notwithstanding that the tax does not apply to all health care items or services in class (or all providers of such items and services), provides for a credit, deduction, or exclusion, is not applied uniformly, or otherwise does not meet the requirements of subparagraph (B) or (C). Permissible waivers may include exemptions for rural or sole-community providers.

“(ii) The Secretary shall approve such an application if the State establishes to the satisfaction of the Secretary that—

“(I) the net impact of the tax and associated expenditures under this title as proposed by the State is generally redistributive in nature, and

“(II) the amount of the tax is not directly correlated to payments under this title for items or services with respect to which the tax is imposed.

The Secretary shall by regulation specify types of credits, exclusions, and deductions that will be considered to meet the requirements of this subparagraph. Regulations.

“(4) For purposes of paragraph (1)(A)(iii), there is in effect a hold harmless provision with respect to a broad-based health care related tax imposed with respect to a class of items or services if the Secretary determines that any of the following applies:

“(A) The State or other unit of government imposing the tax provides (directly or indirectly) for a payment (other than under this title) to taxpayers and the amount of such payment is positively correlated either to the amount of such tax or to the difference between the amount of the tax and the amount of payment under the State plan.

“(B) All or any portion of the payment made under this title to the taxpayer varies based only upon the amount of the total tax paid.

“(C) The State or other unit of government imposing the tax provides (directly or indirectly) for any payment, offset, or waiver that guarantees to hold taxpayers harmless for any portion of the costs of the tax.

The provisions of this paragraph shall not prevent use of the tax to reimburse health care providers in a class for expenditures under this title nor preclude States from relying on such reimbursement to justify or explain the tax in the legislative process.

“(5)(A) For purposes of this subsection, the limit under this subparagraph with respect to a State is an amount equal to 25 percent (or, if greater, the State base percentage, as defined in subparagraph (B)) of the non-Federal share of the total amount expended under the State plan during a State fiscal year (or portion thereof), as it would be determined pursuant to paragraph (1)(A) without regard to paragraph (1)(A)(iv).

“(B)(i) In subparagraph (A), the term ‘State base percentage’ means, with respect to a State, an amount (expressed as a percentage) equal to—

“(I) the total of the amount of health care related taxes (whether or not broad-based) and the amount of provider-related donations (whether or not bona fide) projected to be collected (in accordance with clause (ii)) during State fiscal year 1992, divided by

“(II) the non-Federal share of the total amount estimated to be expended under the State plan during such State fiscal year.

“(ii) For purposes of clause (i)(I), in the case of a tax that is not in effect throughout State fiscal year 1992 or the rate (or base) of which is increased during such fiscal year, the Secretary shall project the amount to be collected during such fiscal year as if the tax (or increase) were in effect during the entire State fiscal year.

“(C)(i) The total amount of health care related taxes under subparagraph (B)(i)(I) shall be determined by the Secretary based on only those taxes (including the tax rate or base) which were in effect, or for which legislation or regulations imposing such taxes were enacted or adopted, as of November 22, 1991.

“(ii) The amount of provider-related donations under subparagraph (B)(i)(I) shall be determined by the Secretary based on programs in effect on September 30, 1991, and applicable to State fiscal year 1992, as demonstrated by State plan amendments, written agreements, State budget documentation, or other documentary evidence in existence on that date.

“(iii) The amount of expenditures described in subparagraph (B)(i)(II) shall be determined by the Secretary based on the best data available as of the date of the enactment of this subsection.

“(6)(A) Notwithstanding the provisions of this subsection, the Secretary may not restrict States’ use of funds where such funds are derived from State or local taxes (or funds appropriated to State university teaching hospitals) transferred from or certified by units of government within a State as the non-Federal share of expenditures under this title, regardless of whether the unit of government is also a health care provider, except as provided in section 1902(a)(2), unless the transferred funds are derived by the unit of government from donations or taxes that would not otherwise be recognized as the non-Federal share under this section.

“(B) For purposes of this subsection, funds the use of which the Secretary may not restrict under subparagraph (A) shall not be considered to be a provider-related donation or a health care related tax.

“(7) For purposes of this subsection:

“(A) Each of the following shall be considered a separate class of health care items and services:

“(i) Inpatient hospital services.

“(ii) Outpatient hospital services.

“(iii) Nursing facility services (other than services of intermediate care facilities for the mentally retarded).

“(iv) Services of intermediate care facilities for the mentally retarded.

“(v) Physicians’ services.

“(vi) Home health care services.

“(vii) Outpatient prescription drugs.

“(viii) Services of health maintenance organizations (and other organizations with contracts under section 1903(m)).

“(ix) Such other classification of health care items and services consistent with this subparagraph as the Secretary may establish by regulation.

“(B) The term ‘health care provider’ means an individual or person that receives payments for the provision of health care items or services.

“(C) An entity is considered to be ‘related’ to a health care provider if the entity—

“(i) is an organization, association, corporation or partnership formed by or on behalf of health care providers;

“(ii) is a person with an ownership or control interest (as defined in section 1124(a)(3)) in the provider;

“(iii) is the employee, spouse, parent, child, or sibling of the provider (or of a person described in clause (ii)); or

“(iv) has a similar, close relationship (as defined in regulations) to the provider.

“(D) The term ‘State’ means only the 50 States and the District of Columbia but does not include any State whose entire program under this title is operated under a waiver granted under section 1115.

“(E) The ‘State fiscal year’ means, with respect to a specified year, a State fiscal year ending in that specified year.

“(F) The term ‘tax’ includes any licensing fee, assessment, or other mandatory payment, but does not include payment of a criminal or civil fine or penalty (other than a fine or penalty

imposed in lieu of or instead of a fee, assessment, or other mandatory payment).

“(G) The term ‘unit of local government’ means, with respect to a State, a city, county, special purpose district, or other governmental unit in the State.”.

(b) CONFORMING AMENDMENTS.—(1) Section 1902(t) of such Act (42 U.S.C. 1396a(t)) is amended—

(A) by striking “Except as provided in section 1903(i), nothing” and inserting “Nothing”, and

(B) by striking “taxes (whether or not of general applicability)” and inserting “taxes of general applicability”.

(2) Section 1903(i) of such Act (42 U.S.C. 1396b(i)) is amended by striking paragraph (10) inserted by section 4701(b)(2)(B) of the Omnibus Budget Reconciliation Act of 1990.

(c) EFFECTIVE DATE.—(1) The amendments made by this section shall take effect January 1, 1992, without regard to whether or not regulations have been promulgated to carry out such amendments by such date. 42 USC 1396a note.

(2) Except as specifically provided in section 1903(w) of the Social Security Act and notwithstanding any other provision of such Act, the Secretary of Health and Human Services shall not, with respect to expenditures prior to the effective date specified in section 1903(w)(1)(F) of such Act, disallow any claim submitted by a State for, or otherwise withhold Federal financial participation with respect to, amounts expended for medical assistance under title XIX of the Social Security Act by reason of the fact that the source of the funds used to constitute the non-Federal share of such expenditures is a tax imposed on, or a donation received from, a health care provider, or on the ground that the amount of any donation or tax proceeds must be credited against the amount of the expenditure. 42 USC 1396b note.

(3) The interim final rule promulgated by the Secretary of Health and Human Services on October 31, 1991 (56 Federal Register 56132), relating to the State share of financial participation under the medicaid program, is hereby nullified and is of no effect. No part of such rule shall be effective except pursuant to a rule promulgated after the date of the enactment of this Act and consistent with this section (and the amendments made by this section).

SEC. 3. RESTRICTIONS ON AGGREGATE PAYMENTS FOR DISPROPORTIONATE SHARE HOSPITALS.

(a) REPEAL OF PROHIBITION OF UPPER PAYMENT LIMIT FOR DISPROPORTIONATE SHARE HOSPITALS.—Section 1902(h) of the Social Security Act (42 U.S.C. 1396a(h)) is amended by striking “to limit” the first place it appears and all that follows through “special needs or”.

“(f) DENIAL OF FEDERAL FINANCIAL PARTICIPATION FOR PAYMENTS IN EXCESS OF CERTAIN LIMITS.—

“(1) IN GENERAL.—

“(A) APPLICATION OF STATE-SPECIFIC LIMITS.—Except as provided in subparagraph (D), payment under section 1903(a) shall not be made with respect to any payment adjustment made under this section for hospitals in a State (as defined in paragraph (4)(B)) for quarters—

“(i) in fiscal year 1992 (beginning on or after January 1, 1992), unless—

“(I) the payment adjustments are made—

“(a) in accordance with the State plan in effect or amendments submitted to the Secretary by September 30, 1991,

“(b) in accordance with the State plan in effect or amendments submitted to the Secretary by November 26, 1991, or modification thereof, if the amendment designates only disproportionate share hospitals with a medicaid or low-income utilization percentage at or above the Statewide arithmetic mean, or

“(c) in accordance with a payment methodology which was established and in effect as of September 30, 1991, or in accordance with legislation or regulations enacted or adopted as of such date; or

“(II) the payment adjustments are the minimum adjustments required in order to meet the requirements of subsection (c)(1); or

“(ii) in a subsequent fiscal year, to the extent that the total of such payment adjustments exceeds the State disproportionate share hospital (in this subsection referred to as ‘DSH’) allotment for the year (as specified in paragraph (2)).

“(B) NATIONAL DSH PAYMENT LIMIT.—The national DSH payment limit for a fiscal year is equal to 12 percent of the total amount of expenditures under State plans under this title for medical assistance during the fiscal year.

“(C) PUBLICATION OF STATE DSH ALLOTMENTS AND NATIONAL DSH PAYMENT LIMIT.—Before the beginning of each fiscal year (beginning with fiscal year 1993), the Secretary shall, consistent with section 1903(d), estimate and publish—

“(ii) the State DSH allotment for each State for the year.

“(D) CONDITIONAL EXCEPTION FOR CERTAIN STATES.—Subject to subparagraph (E), beginning with payments for quarters beginning on or after January 1, 1996, and at the option of a State, subparagraph (A) shall not apply in the case of a State which defines a hospital as a disproportionate share hospital under subsection (a)(1) only if the hospital meets any of the following requirements:

“(i) The hospital’s medicaid inpatient utilization rate (as defined in subsection (b)(2)) is at or above the mean medicaid inpatient utilization rate for all hospitals in the State.

“(ii) The hospital’s low-income utilization rate (as defined in subsection (b)(3)) is at or above the mean low-income utilization rate for all hospitals in the State.

“(iii) The number of inpatient days of the hospital attributable to patients who (for such days) were eligible for medical assistance under the State plan is

equal to at least 1 percent of the total number of such days for all hospitals in the State.

“(E) CONDITION FOR OPTION.—The option specified in subparagraph (D) shall not apply for payments for a quarter beginning before the date of enactment of legislation establishing a limit on payment adjustments under this section which would apply in the case of a state exercising such option.

“(2) DETERMINATION OF STATE DSH ALLOTMENTS.—

“(A) IN GENERAL.—Subject to subparagraph (B), the State DSH allotment for a fiscal year is equal to the State DSH allotment for the previous fiscal year (or, for fiscal year 1993, the State base allotment as defined in paragraph (4)(C)), increased by—

“(ii) the State supplemental amount for the fiscal year (as determined under paragraph (3)).

“(B) EXCEPTIONS.—

“(i) LIMIT TO 12 PERCENT OR BASE ALLOTMENT.—A State DSH allotment under subparagraph (A) for a fiscal year shall not exceed 12 percent of the total amount of expenditures under the State plan for medical assistance during the fiscal year, except that, in the case of a high DSH State (as defined in paragraph (4)(A)), the State DSH allotment shall equal the State based allotment.

“(ii) EXCEPTION FOR MINIMUM REQUIRED ADJUSTMENT.—No State DSH allotment shall be less than the minimum amount of payment adjustments the State is required to make in the fiscal year to meet the requirements of subsection (c)(1).

“(3) STATE SUPPLEMENTAL AMOUNTS.—The Secretary shall determine a supplemental amount for each State that is not a high DSH State for a fiscal year as follows:

“(A) DETERMINATION OF REDISTRIBUTION POOL.—The Secretary shall subtract from the national DSH payment limit (specified in paragraph (1)(B)) for the fiscal year the following:

“(i) the total of the State base allotments for high DSH States;

“(ii) the total of State DSH allotments for the previous fiscal year (or, in the case of fiscal year 1993, the total of State base allotments) for all States other than high DSH States;

“(iii) the total of the State growth amounts for all States other than high DSH States for the fiscal year; and

“(iv) the total additions to State DSH allotments the Secretary estimates will be attributable to paragraph (2)(B)(ii).

“(B) DISTRIBUTION OF POOL BASED ON TOTAL MEDICAID EXPENDITURES FOR MEDICAL ASSISTANCE.—The supplemental amount for a State for a fiscal year is equal to the lesser of—

“(i) the product of the amount determined under subparagraph (A) and the ratio of—

“(I) the total amount of expenditures made under the State plan under this title for medical assistance during the fiscal year, to

“(II) the total amount of expenditures made under the State plans under this title for medical assistance during the fiscal year for all States which are not high DSH States in the fiscal year, or

“(4) DEFINITIONS.—In this subsection:

“(A) HIGH DSH STATE.—The term ‘high DSH State’ means, for a fiscal year, a State for which the State base allotment exceeds 12 percent of the total amount of expenditures made under the State plan under this title for medical assistance during the fiscal year.

“(C) STATE BASE ALLOTMENT.—The term ‘State base allotment’ means, with respect to a State, the greater of—

“(i) the total amount of payment adjustments made under subsection (c) under the State plan during fiscal year 1992 (excluding any such payment adjustments for which a reduction may be made under paragraph (1)(A)(i)), or

“(ii) \$1,000,000.

The amount under clause (i) shall be determined by the Secretary and shall include only payment adjustments described in paragraph (1)(A)(i)(I).

“(D) STATE GROWTH AMOUNT.—The term ‘State growth amount’ means, with respect to a State for a fiscal year, the lesser of—

“(4) **ACREAGE BASE.**—For purposes of this subsection, the acreage base for each sugarcane-producing farm shall be determined by the Secretary, as follows:

“(A) The acreage base for any farm shall be the number of acres that is equal to the average of the acreage planted and considered planted for harvest for sugar or seed on the farm in each of the 5 crop years preceding the fiscal year the proportionate share will be in effect.

“(B) Acreage planted to sugarcane that producers on a farm were unable to harvest to sugarcane for sugar or seed because of drought, flood, other natural disaster, or other condition beyond the control of the producers may be considered as harvested for the production of sugar or seed for purposes of this paragraph.

SEC. 119. SENSE OF CONGRESS REGARDING IMPORTED BARLEY AND OATS.

(a) FINDINGS.—Congress finds that—

(1) significant quantities of barley and oats are currently being imported into the United States from Norway, Sweden, and Finland origins, and there is reason to believe that such imports will continue in the future;

(2) such imported barley and oats are being purchased at a price artificially established at a level significantly below that of domestically produced barley and oats due to unfair and predatory export subsidies and schemes employed by the exporting countries of origin; and

(3) it is likely that the continued importation of such quantities of subsidized barley and oats will significantly and adversely affect producers of domestic barley and oats and impair the operations of existing farm commodity programs for barley and oats in the United States.

(b) SENSE OF CONGRESS.—Based on these findings, it is the sense of Congress that the Secretary of Agriculture and the President of the United States should immediately and aggressively employ all available options under existing laws, including those under section 22 of the Agricultural Adjustment Act (7 U.S.C. 624), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, in order to prevent material damage to the producers of domestic barley and oats and to prevent material interference with the programs established pursuant to section 105B of the Agricultural Act of 1949 (7 U.S.C. 1444f).

7 USC 473a.

(1) by striking clauses (1) and (2) and inserting the following new clauses: “(1) the uniform per bale classification fee to be collected from producers, or their agents, for the classification service in any year shall be the fee established in the previous year for the prevailing method of classification service, exclusive of adjustments to the fee made in the previous year under clauses (2), (3), and (4), and as may be adjusted by the percentage change in the implicit price deflator for the gross national product as indexed during the most recent 12-month period for which statistics are available; (2) the fee calculated in accordance with clause (1) for a crop year may be increased by an amount not to exceed 1 percent for every 100,000 running bales, or portion thereof, that the Secretary estimates will be classed by the United States Department of Agriculture in the crop year below the level of 12,500,000 running bales, or decreased by a quantity not to exceed 1 percent for every 100,000 running bales, or portion thereof, that the Secretary estimates will be classed by the United States Department of Agriculture in the crop year above the level of 12,500,000 running bales;”;

(2) by striking clause (7) and inserting the following new clause: “(7) the Secretary shall announce the uniform classification fee and any surcharge for the crop not later than June 1 of the year in which the fee applies.”.

(c) CLARIFICATION OF SERVICES.—The third sentence of section 3a of such Act is amended to read as follows: “Classification services, other than the prevailing method, provided at the request of the producer shall not be subject to the restrictions specified in clauses (1), (2), and (3) of the preceding sentence.”.

SEC. 121. SENSE OF CONGRESS REGARDING TARGETED OPTION PAYMENTS.

(a) FINDINGS.—Congress finds that—

(1) thousands of agricultural producers are facing extremely difficult economic times and low commodity prices;

(2) the conditions on each farm are unique and require a unique plan to meet the income, conservation, and soil and weather conditions of the farm; and

(3) agricultural producers need the maximum possible flexibility to tailor the agricultural price support and production adjustment program to their farms' individual needs.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary of Agriculture should offer targeted option payments for each of the 1992 through 1995 crops of wheat, feed grains, upland cotton, and rice as authorized by sections 107B(e)(3), 105B(e)(3),

103B(e)(3), and 101B(e)(3) of the Agricultural Act of 1949 (7 U.S.C. 1445b-3a(e)(3), 1444f(e)(3), 1444-2(e)(3), and 1441-2(e)(3)), respectively.

“(2) ASSISTANCE.—Under the program the Secretary shall guarantee for a period of 10 years the timely payment of the principal amount and interest due on each eligible loan described in section 1465(c)(2) made to, or issued for the benefit of, State trust funds and shall for each such 10-year period subsidize the interest on such eligible loans at the allowable interest rate for the first 5 years after the loan is made, or issued, and at no less than 3 percentage points for the second 5 years under procedures described in subsection (b).

“(b) MANDATORY ASSISTANCE TO EACH STATE TRUST FUND.—The Secretary shall—

The procedure described in paragraph (2) shall be used to reimburse the Corporation for funds expended to carry out this paragraph.

“(E) to generate earnings (including through investments not exceeding 10 years in duration for each eligible loan), to be used for future farmland preservation efforts, through investments in direct obligations of the United States or obligations guaranteed by the United States or an agency thereof or by depositing funds in any member bank of the Federal Reserve System or any federally insured State nonmember bank.

“(i) STATE USE OF GUARANTEED LOAN FUNDS.—The Secretary may issue regulations or procedures requiring each State trust fund to report to the Secretary regarding the uses of the eligible loans (described in section 1465(c)(2)) guaranteed by the Secretary and the Secretary may monitor the uses of the funds to ensure that the loans are used for purposes related to this chapter. Neither the Secretary or the lending institution shall have the power to require approval of each specific use of the loans guaranteed by the Secretary, the specific terms of each use of the loan funds, or the specific provisions of each purchase or investment made with loans guaranteed by the Secretary. The Secretary may require that each State trust fund provide a State farmland preservation plan of operation to the Secretary setting forth the plans for administering the program in the State and may require each State trust fund to

After the loan closing, the lending institution shall have no obligation to monitor or approve the use of loan proceeds by the State trust fund.

“(2) APPROVAL OF APPLICATION.—The Secretary shall annually approve the completed application from the eligible State within 30 days after receipt if the application sets forth the general goals and policies of the State trust fund. The Secretary shall provide the Federal assistance required under this chapter beginning on the date the application or plan is approved.

“(3) AMOUNT OF GUARANTEES.—The Secretary shall calculate the total amount of guarantees to be provided for fiscal year 1992 in an amount equal to double the sum of—

“(b) COMPLIANCE.—If the Secretary determines that any State trust fund is failing to comply, to a significant degree, with any

Reports.

requirements of this chapter, the Secretary shall report the failure to the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate, shall fully investigate the matter, may decline to provide additional Federal guarantees or interest subsidies to the State trust fund, and shall take other steps as may be appropriate to prevent the use of Federal assistance in a manner not consistent with this chapter.

“SEC. 1468. APPLICATIONS AND ADMINISTRATION.

“(a) APPLICATIONS.—In applying for assistance under this chapter an eligible State described in section 1465(c)(3)(B) shall—

“(1) prepare and submit, to the Secretary, an application at such time, in such manner, and containing such information as the Secretary shall require;

“(2) agree that the State trust fund will use any funds provided, or guaranteed, by the Secretary under this chapter in a manner that is consistent with the chapter and the regulations promulgated by the Secretary; and

“(3) agree to comply with any other requirements set forth in agreements with the Secretary or as the Secretary may prescribe by regulation.

“(2) EARNINGS.—Earnings of the State trust fund and funds expended by the State or the State trust fund prior to loan closing for purposes consistent with this chapter, and in the same fiscal year, may be considered as matching funds.

“(3) OBLIGATIONS.—Proceeds from the sale of tax-exempt general obligation bonds, or other obligations, of the State or State trust fund shall be an allowable source of matching funds under this chapter for the same fiscal year.

“(4) LAND.—The fair market value of any donation of an interest in land to the State trust fund, or a charitable organization working with the State trust fund, may be considered as matching funds, for the same fiscal year, if—

“(i) the fair market value is based on an appraisal determined to be adequate by the State trust fund; and

“(ii) the donation is consistent with the State farmland preservation plan,

except that the value of land donated to charitable organizations by the State trust fund shall not be included as part of the match.

“(d) CLARIFICATION OF FEDERAL LAW.—Sellers of land, or of interests in land, to any State trust fund are not, and shall not be considered by the Secretary as, recipients or beneficiaries of Federal assistance.

“SEC. 1469. REPORT.

“Not later than September 30, 1992, and annually thereafter, the Secretary of Agriculture shall prepare and submit, to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, a report concerning the operation of the program established under this chapter.”.

“(1) **CREDIT RISK.**—With respect to securities representing an interest in, or obligations backed by, a pool of qualified loans

owned or guaranteed by the Corporation and other obligations of the Corporation, losses on the underlying qualified loans occur throughout the United States at a rate of default and severity (based on any measurements of default reasonably related to prevailing industry practice in determining capital adequacy) reasonably related to the rate and severity that occurred in contiguous areas of the United States containing an aggregate of not less than 5 percent of the total population of the United States that, for a period of not less than 2 years (as established by the Director), experienced the highest rates of default and severity of agricultural mortgage losses, in comparison with such rates of default and severity of agricultural mortgage losses in other such areas for any period of such duration, as determined by the Director.

The regulations shall be sufficiently specific to permit an individual other than the Director to apply the test in the same manner as the Director.

Intermodal
Surface
Transportation
Efficiency Act of
1991. ISTE A
Inter-

relations.
49 USC 101 note.
49 USC 101 note.

To develop a national intermodal surface transportation system, to authorize funds for construction of highways, for highway safety programs, and for mass transit programs, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Intermodal Surface Transportation Efficiency Act of 1991”.

SEC. 2. DECLARATION OF POLICY: INTERMODAL SURFACE TRANSPORTATION EFFICIENCY ACT.

It is the policy of the United States to develop a National Intermodal Transportation System that is economically efficient and environmentally sound, provides the foundation for the Nation to compete in the global economy, and will move people and goods in an energy efficient manner.

The National Intermodal Transportation System shall consist of all forms of transportation in a unified, interconnected manner, including the transportation systems of the future, to reduce energy consumption and air pollution while promoting economic development and supporting the Nation’s preeminent position in international commerce.

The National Intermodal Transportation System shall include a National Highway System which consists of the National System of Interstate and Defense Highways and those principal arterial roads which are essential for interstate and regional commerce and travel, national defense, intermodal transfer facilities, and international commerce and border crossings.

The National Intermodal Transportation System shall include significant improvements in public transportation necessary to achieve national goals for improved air quality, energy conservation, international competitiveness, and mobility for elderly persons, persons with disabilities, and economically disadvantaged persons in urban and rural areas of the country.

The National Intermodal Transportation System shall provide improved access to ports and airports, the Nation’s link to world commerce.

The National Intermodal Transportation System shall give special emphasis to the contributions of the transportation sectors to increased productivity growth. Social benefits must be considered with particular attention to the external benefits of reduced air pollution, reduced traffic congestion and other aspects of the quality of life in the United States.

The National Intermodal Transportation System must be operated and maintained with insistent attention to the concepts of innovation, competition, energy efficiency, productivity, growth, and accountability. Practices that resulted in the lengthy and overly

costly construction of the Interstate and Defense Highway System must be confronted and ceased.

The National Intermodal Transportation System shall be adapted to “intelligent vehicles”, “magnetic levitation systems”, and other new technologies wherever feasible and economical, with benefit cost estimates given special emphasis concerning safety considerations and techniques for cost allocation.

The National Intermodal Transportation System, where appropriate, will be financed, as regards Federal apportionments and reimbursements, by the Highway Trust Fund. Financial assistance will be provided to State and local governments and their instrumentalities to help implement national goals relating to mobility for elderly persons, persons with disabilities, and economically disadvantaged persons.

The National Intermodal Transportation System must be the centerpiece of a national investment commitment to create the new wealth of the Nation for the 21st century.

The Secretary shall distribute copies of this Declaration of Policy to each employee of the Department of Transportation and shall ensure that such Declaration of Policy is posted in all offices of the Department of Transportation.

SEC. 3. SECRETARY DEFINED.

49 USC 101 note.

As used in this Act, the term “Secretary” means the Secretary of Transportation.

"(a) **BASIC PROGRAM.**—

"(1) **AUTHORIZATION FOR FEDERAL PARTICIPATION.**—Notwithstanding section 301 of this title and subject to the provisions of this section, the Secretary shall permit Federal participation in—

"(A) initial construction of a toll highway, bridge, or tunnel (other than a highway, bridge, or tunnel on the Interstate System) or approach thereto;

"(B) reconstructing, resurfacing, restoring, and rehabilitating a toll highway, bridge, or tunnel (including a toll highway, bridge, or tunnel subject to an agreement entered into under this section or section 119(e) as in effect on the day before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991) or approach thereto;

"(C) reconstruction or replacement of a toll-free bridge or tunnel and conversion of the bridge or tunnel to a toll facility;

"(D) reconstruction of a toll-free Federal-aid highway (other than a highway on the Interstate System) and conversion of the highway to a toll facility; and

"(E) preliminary studies to determine the feasibility of a toll facility for which Federal participation is authorized under subparagraph (A), (B), (C), or (D);

on the same basis and in the same manner as in the construction of free highways under this chapter.

"(2) **OWNERSHIP.**—Each highway, bridge, tunnel, or approach thereto constructed under this subsection must—

"(A) be publicly owned, or

"(B) be privately owned if the public authority having jurisdiction over the highway, bridge, tunnel, or approach has entered into a contract with a private person or persons to design, finance, construct, and operate the facility and the public authority will be responsible for complying with all applicable requirements of this title with respect to the facility.

Contracts.

"(3) **LIMITATIONS ON USE OF REVENUES.**—Before the Secretary may permit Federal participation under this subsection in

construction of a highway, bridge, or tunnel located in a State, the public authority (including the State transportation department) having jurisdiction over the highway, bridge, or tunnel must enter into an agreement with the Secretary which provides that all toll revenues received from operation of the toll facility will be used first for debt service, for reasonable return on investment of any private person financing the project, and for the costs necessary for the proper operation and maintenance of the toll facility, including reconstruction, resurfacing, restoration, and rehabilitation. If the State certifies annually that the tolled facility is being adequately maintained, the State may use any toll revenues in excess of amounts required under the preceding sentence for any purpose for which Federal funds may be obligated by a State under this title.

“(4) SPECIAL RULE FOR FUNDING.—In the case of a toll highway, bridge, or tunnel under the jurisdiction of a public authority of a State (other than the State transportation department), upon request of the State transportation department and subject to such terms and conditions as such department and public authority may agree, the Secretary shall reimburse such public authority for the Federal share of the costs of construction of the project carried out on the toll facility under this subsection in the same manner and to the same extent as such department would be reimbursed if such project was being carried out by such department. The reimbursement of funds under this paragraph shall be from sums apportioned to the State under this chapter and available for obligations on projects on the Federal-aid system in such State on which the project is being carried out.

“(5) LIMITATION ON FEDERAL SHARE.—Except as otherwise provided in this paragraph, the Federal share payable for construction of a highway, bridge, tunnel, or approach thereto or conversion of a highway, bridge, or tunnel to a toll facility under this subsection shall be such percentage as the State determines but not to exceed 50 percent. The Federal share payable for construction of a new bridge, tunnel, or approach thereto or for reconstruction or replacement of a bridge, tunnel, or approach thereto shall be such percentage as the Secretary determines but not to exceed 80 percent. In the case of a toll facility subject to an agreement under section 119 or 129, the Federal share payable on any project for resurfacing, restoring, rehabilitating, or reconstructing such facility shall be 80 percent until the scheduled expiration of such agreement (as in effect on the day before the date of the enactment of the Intermodal Surface Transportation Efficiency Act of 1991).

“(6) MODIFICATIONS.—If a public authority (including a State transportation department) having jurisdiction over a toll highway, bridge, or tunnel subject to an agreement under this section or section 119(e), as in effect on the day before the effective date of title I of the Intermodal Surface Transportation Efficiency Act of 1991, requests modification of such agreement, the Secretary shall modify such agreement to allow the continuation of tolls in accordance with paragraph (3) without repayment of Federal funds.

“(7) LOANS.—A State may loan all or part of the Federal share of a toll project under this section to a public or private agency constructing a toll facility. Such loan may be made only after all

Federal environmental requirements have been complied with and permits obtained. The amount loaned shall be subordinated to other debt financing for the facility except for loans made by the State or any other public agency to the agency constructing the facility. Funds loaned pursuant to this section may be obligated for projects eligible under this section. The repayment of any such loan shall commence not more than 5 years after the facility has opened to traffic. Any such loan shall bear interest at the average rate the State's pooled investment fund earned in the 52 weeks preceding the start of repayment. The term of any such loan shall not exceed 30 years from the time the loan was obligated. Amounts repaid to a State from any loan made under this section may be obligated for any purpose for which the loaned funds were available. The Secretary shall establish procedures and guidelines for making such loans.

“(8) INITIAL CONSTRUCTION DEFINED.—For purposes of this subsection, the term ‘initial construction’ means the construction of a highway, bridge, or tunnel at any time before it is open to traffic and does not include any improvement to a highway, bridge, or tunnel after it is open to traffic.”

(2) Notwithstanding section 129 of title 23, United States Code, the Federal share payable for such programs shall be 80 percent. The Secretary shall fund all of the development and other start up costs of such projects, including salaries and expenses, for a period of at least 1 year, and thereafter until such time that sufficient revenues are being generated by the program to fund its operating costs without Federal participation, except that the Secretary may not fund any project for more than 3 years.

(3) Revenues generated by any pilot project under this subsection must be applied to projects eligible under such title.

(4) Notwithstanding sections 129 and 301 of title 23, United States Code, the Secretary shall allow the use of tolls on the Interstate System as part of a pilot program under this section, but not on more than 3 of such programs.

Reports.

(5) The Secretary shall monitor the effect of such projects for a period of at least 10 years, and shall report to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives every 2 years on the effects such programs are having on driver behavior, traffic, volume, transit ridership, air quality, and availability of funds for transportation programs.

(6) Of the sums made available to the Secretary pursuant to section 104(a) of title 23, United States Code, not to exceed \$25,000,000 shall be made available each fiscal year to carry out the requirements of this subsection. Not more than \$15,000,000 of such amounts shall be made available to carry out each pilot project under this section.

To accomplish this objective, metropolitan planning organizations, in cooperation with the State, shall develop transportation plans and programs for urbanized areas of the State. Such plans and programs shall provide for the development of transportation facilities (including pedestrian walkways and bicycle transportation facilities) which will function as an intermodal transportation system for the State, the metropolitan areas, and the Nation. The process for developing such plans and programs shall provide for consideration of all modes of transportation and shall be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation problems.

“(b) **DESIGNATION OF METROPOLITAN PLANNING ORGANIZATIONS.**—

“(1) **IN GENERAL.**—To carry out the transportation planning process required by this section, a metropolitan planning organization shall be designated for each urbanized area of more than 50,000 population by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) or in accordance with procedures established by applicable State or local law.

“(2) **MEMBERSHIP OF CERTAIN MPO’S.**—In a metropolitan area designated as a transportation management area, the metropolitan planning organization designated for such area shall include local elected officials, officials of agencies which administer or operate major modes of transportation in the metropolitan area (including all transportation agencies included in the metropolitan planning organization on June 1, 1991) and appropriate State officials. This paragraph shall only apply to a metropolitan planning organization which is redesignated after the date of the enactment of this section.

“(3) **LIMITATION ON STATUTORY CONSTRUCTION.**—Nothing in this subsection shall be construed to interfere with the authority, under any State law in effect on the date of the enactment of this section, of a public agency with multimodal transportation responsibilities to—

“(A) develop plans and programs for adoption by a metropolitan planning organization; and

“(B) develop long-range capital plans, coordinate transit services and projects, and carry out other activities pursuant to State law.

“(4) **CONTINUING DESIGNATION.**—Designations of metropolitan planning organizations, whether made under this section or other provisions of law, shall remain in effect until redesignated under paragraph (5) or revoked by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population or as otherwise provided under State or local procedures.

“(5) **REDESIGNATION.**—

“(A) **PROCEDURES.**—A metropolitan planning organization may be redesignated by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) as appropriate to carry out this section.

“(B) **CERTAIN REQUESTS TO REDESIGNATE.**—A metropolitan planning organization shall be redesignated upon request of a unit or units of general purpose local government representing at least 25 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) in any urbanized area (i) whose population is more than 5,000,000 but less than 10,000,000, or (ii) which is an extreme nonattainment area for ozone or carbon monoxide as defined under the Clean Air Act. Such redesignation shall be accomplished using procedures established by subparagraph (A).

“(6) **TREATMENT OF LARGE URBAN AREAS.**—More than 1 metropolitan planning organization may be designated within an urbanized area as defined by the Bureau of the Census only if the Governor determines that the size and complexity of the urbanized area make designation of more than 1 metropolitan planning organization for such area appropriate.

“(c) **METROPOLITAN AREA BOUNDARIES.**—For the purposes of this section, the boundaries of a metropolitan area shall be determined by agreement between the metropolitan planning organization and the Governor. Each metropolitan area shall cover at least the existing urbanized area and the contiguous area expected to become

"(A) Identify transportation facilities (including but not necessarily limited to major roadways, transit, and multimodal and intermodal facilities) that should function as an integrated metropolitan transportation system, giving emphasis to those facilities that serve important national and regional transportation functions. In formulating the long range plan, the metropolitan planning organization shall consider factors described in subsection (f) as such factors relate to a 20-year forecast period.

"(B) Include a financial plan that demonstrates how the long-range plan can be implemented, indicates resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommends any innovative financing techniques to finance needed projects and programs, including such techniques as value capture, tolls and congestion pricing.

23 USC 109 note.

title 23, United States Code, or regulation or policy of the Department of Transportation, the Secretary (or a State acting as the Department's agent) may not disapprove a highway project under chapter 1 of title 23, United States Code, on the ground that the project includes the use of asphalt pavement containing recycled rubber. Under this subsection, a patented application process for recycled rubber shall be eligible for approval under the same conditions that an unpatented process is eligible for approval.

(b) STUDIES.—

(1) IN GENERAL.—The Secretary and the Administrator of the Environmental Protection Agency shall coordinate and conduct, in cooperation with the States, a study to determine—

(A) the threat to human health and the environment associated with the production and use of asphalt pavement containing recycled rubber;

(B) the degree to which asphalt pavement containing recycled rubber can be recycled; and

(C) the performance of the asphalt pavement containing recycled rubber under various climate and use conditions.

(2) DIVISION OF RESPONSIBILITIES.—The Administrator shall conduct the part of the study relating to paragraph (1)(A) and the Secretary shall conduct the part of the study relating to paragraph (1)(C). The Administrator and the Secretary shall jointly conduct the study relating to paragraph (1)(B).

(3) ADDITIONAL STUDY.—The Secretary and the Administrator, in cooperation with the States, shall jointly conduct a study to determine the economic savings, technical performance qualities, threats to human health and the environment, and environmental benefits of using recycled materials in highway devices and appurtenances and highway projects, including asphalt containing over 80 percent reclaimed asphalt, asphalt containing recycled glass, and asphalt containing recycled plastic.

(4) ADDITIONAL ELEMENTS.—In conducting the study under paragraph (3), the Secretary and the Administrator shall examine utilization of various technologies by States and shall examine the current practices of all States relating to the reuse and disposal of materials used in federally assisted highway projects.

(5) REPORT.—Not later than 18 months after the date of the enactment of this Act, the Secretary and the Administrator shall transmit to Congress a report on the results of the studies conducted under this subsection, including a detailed analysis of the economic savings and technical performance qualities of using such recycled materials in federally assisted highway projects and the environmental benefits of using such recycled materials in such highway projects in terms of reducing air emissions, conserving natural resources, and reducing disposal of the materials in landfills.

(c) DOT GUIDANCE.—

(1) INFORMATION GATHERING AND DISTRIBUTION.—The Secretary shall gather information and recommendations concerning the use of asphalt containing recycled rubber in highway projects from those States that have extensively evaluated and experimented with the use of such asphalt and implemented such projects and shall make available such information and

recommendations on the use of such asphalt to those States which indicate an interest in the use of such asphalt.

(2) **ENCOURAGEMENT OF USE.**—The Secretary should encourage the use of recycled materials determined to be appropriate by the studies pursuant to subsection (b) in federally assisted highway projects. Procuring agencies shall comply with all applicable guidelines or regulations issued by the Administrator of the Environmental Protection Agency.

(d) **USE OF ASPHALT PAVEMENT CONTAINING RECYCLED RUBBER.**—

(1) **STATE CERTIFICATION.**—Beginning on January 1, 1995, and annually thereafter, each State shall certify to the Secretary that such State has satisfied the minimum utilization requirement for asphalt pavement containing recycled rubber established by this section. The minimum utilization requirement for asphalt pavement containing recycled rubber as a percentage of the total tons of asphalt laid in such State and financed in whole or part by any assistance pursuant to title 23, United States Code, shall be—

(A) 5 percent for the year 1994;

(B) 10 percent for the year 1995;

(C) 15 percent for the year 1996; and

(D) 20 percent for the year 1997 and each year thereafter.

(3) **INCREASE.**—The Secretary may increase the minimum utilization requirement of paragraph (1) for asphalt pavement containing recycled rubber to be used in federally assisted highway projects to the extent it is technologically and economically feasible to do so and if an increase is appropriate to assure markets for the reuse and recycling of scrap tires. The minimum utilization requirement for asphalt pavement containing recycled rubber may not be met by any use or technique found to be unsuitable for use in highway projects by the studies under subsection (b).

(4) **PENALTY.**—The Secretary shall withhold from any State that fails to make a certification under paragraph (1) for any fiscal year, a percentage of the apportionments under section 104 (other than subsection (b)(5)(A)) of title 23, United States Code, that would otherwise be apportioned to such State for such fiscal year under such section equal to the percentage utilization requirement established by paragraph (1) for such fiscal year.

(5) **SECRETARIAL WAIVER.**—The Secretary may set aside the provisions of this subsection for any 3-year period on a determination, made in concurrence with the Administrator of the Environmental Protection Agency with respect to subparagraphs (A) and (B) of this paragraph, that there is reliable evidence indicating—

(A) that manufacture, application, or use of asphalt pavement containing recycled rubber substantially increases the threat to human health or the environment as compared to the threats associated with conventional pavement;

(B) that asphalt pavement containing recycled rubber cannot be recycled to substantially the same degree as conventional pavement; or

(C) that asphalt pavement containing recycled rubber does not perform adequately as a material for the construction or surfacing of highways and roads.

The Secretary shall consider the results of the study under subsection (b)(1) in determining whether a 3-year set-aside is appropriate.

(6) **RENEWAL OF WAIVER.**—Any determination made to set aside the requirements of this section may be renewed for an additional 3-year period by the Secretary, with the concurrence of the Administrator with respect to the determinations made under paragraphs (5)(A) and (5)(B). Any determination made with respect to paragraph (5)(C) may be made for specific States or regions considering climate, geography, and other factors that may be unique to the State or region and that would prevent the adequate performance of asphalt pavement containing recycled rubber.

(7) **INDIVIDUAL STATE REDUCTION.**—The Secretary shall establish a minimum utilization requirement for asphalt pavement containing recycled rubber less than the minimum utilization requirement otherwise required by paragraph (1) in a particular State, upon the request of such State and if the Secretary, with the concurrence of the Administrator of the Environmental Protection Agency, determines that there is not a sufficient quantity of scrap tires available in the State prior to disposal to meet the minimum utilization requirement established under paragraph (1) as the result of recycling and processing uses (in that State or another State), including retreading or energy recovery.

(e) **DEFINITIONS.**—For purpose of this section—

(1) the term “asphalt pavement containing recycled rubber” means any hot mix or spray applied binder in asphalt paving mixture that contains rubber from whole scrap tires which is used for asphalt pavement base, surface course or interlayer, or other road and highway related uses and—

(A) is a mixture of not less than 20 pounds of recycled rubber per ton of hot mix or 300 pounds of recycled rubber per ton of spray applied binder; or

(B) is any mixture of asphalt pavement and recycled rubber that is certified by a State and is approved by the Secretary, provided that the total amount of recycled rubber from whole scrap tires utilized in any year in such State shall be not less than the amount that would be utilized if all asphalt pavement containing recycled rubber laid in such State met the specifications of subparagraph (A) and subsection (d)(1); and

(2) the term “recycled rubber” is any crumb rubber derived from processing whole scrap tires or shredded tire material taken from automobiles, trucks, or other equipment owned and operated in the United States.

The extension of the completion date shall not be considered agency action subject to judicial review.

(II) **ACTION.**—A rulemaking under paragraph (5) of section 2503 shall be considered completed when the Secretary promulgates a final rule with standards on improved head injury protection.

SEC. 2504. RECALL OF CERTAIN MOTOR VEHICLES.

(a) **NOTIFICATION OF DEFECT OR FAILURE TO COMPLY.**—Section 153 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1413) is amended by adding at the end the following new subsections:

“(d) If the Secretary determines that a notification sent by a manufacturer pursuant to subsection (c) of this section has not resulted in an adequate number of vehicles or items of equipment being returned for remedy, the Secretary may direct the manufacturer to send a second notification in such manner as the Secretary may by regulation prescribe.

“(e)(1) Any lessor who receives a notification required by section 151 or 152 pertaining to any leased motor vehicle shall send a copy of such notice to the lessee in such manner as the Secretary may by regulation prescribe.

“(2) For purposes of this subsection, the term ‘leased motor vehicle’ means any motor vehicle which is leased to a person for a term of at least four months by a lessor who has leased five or more vehicles in the twelve months preceding the date of the notification.”.

(b) **LIMITATION ON SALE OR LEASE OF CERTAIN VEHICLES.**—Section 154 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1414) is amended by adding at the end the following:

“(d) If notification is required under section 151 or by an order under section 152(b) and has been furnished by the manufacturer to a dealer of motor vehicles with respect to any new motor vehicle or new item of replacement equipment in the dealer’s possession at the time of notification which fails to comply with an applicable Federal motor vehicle safety standard or contains a defect which relates to motor vehicle safety, such dealer may sell or lease such motor vehicle or item of replacement equipment only if—

“(1) the defect or failure to comply has been remedied in accordance with this section before delivery under such sale or lease; or

“(2) in the case of notification required by an order under section 152(b), enforcement of the order has been restrained in

an action to which section 155(a) applies or such order has been set aside in such an action.

Nothing in this subsection shall be construed to prohibit any dealer from offering for sale or lease such vehicle or item of equipment.”.

SEC. 2505. STANDARDS OF COMPLIANCE TEST PROGRAM.

Section 103 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1392) is amended by adding at the end the following:

“(j) The Secretary shall establish and periodically review and update on a continuing basis a 5-year plan for testing Federal Motor Vehicle Safety Standards that are capable, in the Secretary’s judgment, of being tested. In developing the plan and establishing testing priorities, the Secretary shall take into consideration such factors as the Secretary deems appropriate, consistent with the purposes of this Act and the Secretary’s other responsibilities under this Act. The Secretary may at any time adjust such priorities to address matters the Secretary deems of greater priority. The initial plan may be the 5-year plan for compliance testing in effect on the date of enactment of this subsection.”.

SEC. 2506. REAR SEATBELTS.

The Secretary shall expend such portion of the funds authorized to be appropriated under the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1901 et seq.), for fiscal year 1993, as the Secretary deems necessary for the purpose of disseminating information to consumers regarding the manner in which passenger cars may be retrofitted with lap and shoulder rear seatbelts.

SEC. 2507. BRAKE PERFORMANCE STANDARDS FOR PASSENGER CARS.

Not later than December 31, 1993, the Secretary, in accordance with the National Traffic and Motor Vehicle Safety Act of 1966, shall publish an advance notice of proposed rulemaking to consider the need for any additional brake performance standards for passenger cars, including antilock brake standards. The Secretary shall complete such rulemaking (in accordance with section 2502(b)(2)(B)(ii)) not later than 36 months from the date of initiation of such advance notice of proposed rulemaking. In order to facilitate and encourage innovation and early application of economical and effective antilock brake systems for all such vehicles, the Secretary shall, as part of the rulemaking, consider any such brake system adopted by a manufacturer.

SEC. 2508. AUTOMATIC CRASH PROTECTION AND SAFETY BELT USE.

(a) AMENDMENT OF STANDARD.—

(1) **SPECIFICATIONS.**—Notwithstanding any other provision of law or rule, the Secretary shall by September 1, 1993, promulgate, in accordance with the National Traffic and Motor Vehicle Safety Act of 1966 (to the extent such Act is not in conflict with the provisions of this section), an amendment to Federal Motor Vehicle Safety Standard 208 issued under such Act to provide that the automatic occupant crash protection system for the front outboard designated seating positions of each—

(A) new truck, bus, and multipurpose passenger vehicle (other than walk-in van-type trucks and vehicles designed to be exclusively sold to the United States Postal Service)

with a gross vehicle weight rating of 8,500 pounds or less and an unloaded vehicle weight of 5,500 pounds or less, and

(B) new passenger car, manufactured on or after the dates specified in the applicable schedule established by subsection (b), shall be an inflatable restraint complying with the occupant protection requirements under section 4.1.2.1 of such Standard. This section supplements and revises, but does not replace, Federal Motor Vehicle Safety Standard 208, including the amendment to such Standard 208 of March 26, 1991 (56 F.R. 12472), extending the requirements for automatic crash protection, together with incentives for more innovative automatic crash protection, to trucks, buses, and multipurpose passenger vehicles.

(2) REQUIREMENT.—The amendment to such Standard 208 shall also require, to be effective as soon as possible after the promulgation of such amendment, that the owner manuals for passenger cars and trucks, buses, and multipurpose passenger vehicles equipped with an inflatable restraint include a statement in an easily understandable format—

(A) that the vehicle is equipped with an inflatable restraint referred to as an “airbag” and a lap and shoulder belt in either or both the front outboard seating positions;

(B) that the airbag is a supplemental restraint;

(C) that it does not substitute for lap and shoulder belts which must also be correctly used by an occupant in such seating position to provide restraint or protection not only from frontal crashes but from other types of crashes or accidents; and

(D) that all occupants, including the driver, should always wear their lap and shoulder belts, where available, or other safety belts, whether or not there is an inflatable restraint.

(3) FINDING.—The Congress finds that it is in the public interest for all States to adopt and enforce mandatory seat belt use laws and for the Federal Government to adopt and enforce mandatory seat belt use rules.

(b) SCHEDULE.—The amendment promulgated under subsection (a) shall establish the following schedule: Effective dates.

(1) NEW PASSENGER CARS.—The amendment shall take effect for 95 percent of each manufacturer’s annual production of passenger cars manufactured on and after September 1, 1996, and before September 1, 1997, and for 100 percent of each manufacturer’s production of passenger cars manufactured on and after September 1, 1997. Subject to the provisions of subsection (c), the percentage prescribed for passenger cars manufactured on and after September 1, 1997, shall be met entirely by inflatable restraints (accompanied by lap and shoulder belts) for both front outboard seating positions.

(2) NEW TRUCKS, BUSES, AND MULTIPURPOSE PASSENGER VEHICLES.—The amendment shall take effect for 80 percent of each manufacturer’s annual production of trucks, buses, and multipurpose passenger vehicles described in subsection (a)(1)(A) and manufactured on and after September 1, 1997, and before September 1, 1998, and for 100 percent of each manufacturer’s production of such trucks, buses, and multipurpose passenger vehicles manufactured on and after September 1, 1998. Subject to the provisions of subsection (c), the percentage prescribed for such trucks, buses, and multipurpose passenger vehicles manu-

factured on and after September 1, 1998, shall be met entirely by inflatable restraints (accompanied by lap and shoulder belts) for both front outboard seating positions. The incentives or credits available under Standard 208 (as amended by this section) prior to September 1, 1998, shall not be available to the manufacturers to comply with the 100 percent requirement of this paragraph on and after such date.

(c) **TEMPORARY EXEMPTION FROM REQUIREMENTS.**—Upon application by a manufacturer, in such manner and containing such information as the Secretary shall prescribe in the amendment under this section to such Standard 208, the Secretary may at any time, under such terms and conditions and to such extent as the Secretary deems appropriate, temporarily exempt or renew the exemption of a motor vehicle from the requirements of subsection (a) or (b), or both, if the Secretary finds that there has been a disruption in the supply of any inflatable restraint component, or a disruption in the use and installation by the manufacturer of such component due to unavoidable events not under the control of the manufacturer, that will prevent a manufacturer from meeting its anticipated production volume of vehicles with such restraints. Each application for such exemption must be filed by the manufacturer affected, and must specify the models, lines, and types of vehicles actually affected, although the Secretary may consolidate applications of a similar nature of 1 or more manufacturers. Any exemption or renewal shall be conditioned upon the manufacturer's commitment to recall the exempted vehicles for installation of omitted inflatable restraints within a reasonable time proposed by the manufacturer and approved by the Secretary after such components become available in sufficient quantities to satisfy both anticipated production and recall volume requirements. Notice of each application shall be published in the Federal Register and notice of each decision to grant or deny a temporary exemption, and the reasons for granting or denying it, shall be published in the Federal Register. The Secretary shall require labeling for each exempted motor vehicle which can only be removed after recall and installation of the required inflatable restraint. If a vehicle is delivered without an inflatable restraint, the Secretary shall require that written notification of the exemption be delivered to the dealer and first purchasers for purposes other than resale of such exempted motor vehicle in such a manner, and containing such information, as the Secretary deems appropriate.

(d) **CONSTRUCTION.**—Nothing in this section shall be construed by the Secretary or any other person, including any court, as altering or affecting any other provision of law administered by the Secretary and applicable to such passenger cars or trucks, buses, or multipurpose passenger vehicles or as establishing any precedent regarding the development and promulgation of any Federal Motor Vehicle Safety Standard. Nothing in this section or in the amendments made under this section to Federal Motor Vehicle Safety Standard 208 shall be construed by any person or court as indicating an intention by Congress to affect, change, or modify in any way the liability, if any, of a motor vehicle manufacturer under applicable law relative to vehicles with or without inflatable restraints.

(e) **REPORT.**—The Secretary shall biannually report, beginning October 1, 1992 and continuing to October 1, 2000, on the actual effectiveness of an occupant restraint system defined as the percentage reduction in fatalities or injuries of restrained occupants as

Federal
Register,

compared to unrestrained occupants for the combination of inflated restraints and lap and shoulder belts, for inflated restraints alone, and for lap and shoulder belts alone. The Secretary, in consultation with the Secretary of Labor and the Secretary of Defense, shall also provide data and analysis on lap and shoulder belt use, nationally and in each State, by Federal, State, and local law enforcement officers, by military personnel, by Federal and State employees other than law enforcement officers, and by the public.

(f) **AIRBAGS FOR CARS ACQUIRED FOR FEDERAL USE.**—The Secretary, in cooperation with the Administrator of General Services and the heads of other appropriate Federal agencies and consistent with applicable provisions of Federal procurement law and available appropriations, shall establish a program requiring that all passenger cars acquired after September 30, 1994, for use by the Federal Government be equipped, to the maximum extent practicable, with driver-side inflatable restraints and that all passenger cars acquired after September 30, 1996, for use by the Federal Government be equipped, to the maximum extent practicable, with inflatable restraints for both the driver and front seat outboard seating positions.

SEC. 2509. HEAD INJURY IMPACT STUDY.

The Secretary, in the case of any head injury protection matters not subject to section 2503(5) for which the Secretary is on the date of enactment of this Act examining the need for rulemaking and is conducting research, shall provide a report to Congress by the end of fiscal year 1993 identifying those matters and their status. The report shall include a statement of any actions planned toward initiating such rulemaking no later than fiscal year 1994 or 1995 through use of either an advance notice of proposed rulemaking or a notice of proposed rulemaking and completing such rulemaking as soon as possible thereafter.

The agreement shall specify that the contingent commitment does not constitute an obligation of the United States. The future availability of budget authority referred to in the first sentence of this subparagraph shall be amounts to be specified in law in advance for commitments entered into under subparagraph (B). “(B) is justified based on a comprehensive review of its mobility improvements, environmental benefits, cost effectiveness, and operating efficiencies; and

“(C) is supported by an acceptable degree of local financial commitment, including evidence of stable and dependable funding sources to construct, maintain, and operate the system or extension.

“(2) **CONSIDERATIONS.**—In making determinations under this subsection, the Secretary—

“(ii) each proposed local source of capital and operating funding is stable, reliable, and available within the proposed project timetable; and

“(iii) local resources are available to operate the overall proposed transit system (including essential feeder bus and other services necessary to achieve the projected ridership levels) without requiring a reduction in existing transit services in order to operate the proposed project.

“(D) **STABILITY ASSESSMENT.**—In assessing the stability, reliability, and availability of proposed sources of local funding, the Secretary shall consider—

“(i) existing grant commitments;

“(ii) the degree to which funding sources are dedicated to the purposes proposed; and

“(iii) any debt obligations which exist or are proposed by the recipient for the proposed project or other transit purposes.

“(4) **PROJECT ADVANCEMENT.**—No project shall be advanced from alternatives analysis to preliminary engineering unless the Secretary finds that the proposed project meets the requirements of this section and there is a reasonable chance that the project will continue to meet these requirements at the conclusion of preliminary engineering.

“(5) **EXCEPTIONS.**—

“(A) **IN GENERAL.**—A new fixed guideway system or extension shall not be subject to the requirements of this subsection and the simultaneous evaluation of such projects in more than one corridor in a metropolitan area shall not be limited if (i) the project is located within an extreme or severe nonattainment area and is a transportation control measure, as defined by the Clean Air Act, that is required to carry out an approved State Implementation Plan, or (ii) assistance provided under this section accounts for less than \$25,000,000 or less than $\frac{1}{3}$ of the total cost of the project or an appropriate program of projects as determined by the Secretary.

“(B) **EXPEDITED PROCEDURES.**—In the case of a project that is (i) located within a nonattainment area that is not an extreme or severe nonattainment area, (ii) a transportation control measure, as defined in the Clean Air Act, and (iii) required to carry out an approved State Implementation Plan, the simultaneous evaluation of projects in more than one corridor in a metropolitan area shall not be limited and the Secretary shall make determinations under this subsec-

tion with expedited procedures that will promote timely implementation of the State Implementation Plan.

“(C) EXCLUSION FOR CERTAIN PROJECTS.—That portion of a project (including any commuter rail service project on an existing right-of-way) financed entirely with highway funds made available under the Federal-Aid Highway Act of 1991 shall not be subject to the requirements of this subsection.

SEC. 3011. ASSURED TIMETABLE FOR PROJECT REVIEW.

(a) IN GENERAL.—Section 3(a) is amended by striking paragraph (6) and inserting the following new paragraphs: 49 USC app. 1602.

“(6) ASSURED TIMETABLE FOR PROJECTS IN ALTERNATIVES ANALYSIS, PRELIMINARY ENGINEERING, OR FINAL DESIGN STAGES.—

“(A) ALTERNATIVES ANALYSIS STAGE.—For any new fixed guideway project that the Secretary permits to advance into the alternatives analysis stage of project review, the Secretary shall cooperate with the applicant in alternatives analysis and in preparation of a draft environmental impact statement, and shall approve the draft environmental impact statement for circulation not later than 45 days after the date on which such draft is submitted to the Secretary by the applicant.

“(B) PRELIMINARY ENGINEERING STAGE.—Following circulation of the draft environmental impact statement and not later than 30 days after selection by the applicant of a locally preferred alternative, the Secretary shall permit the project to advance to the preliminary engineering phase if the Secretary finds the project is consistent with the criteria set forth in subsection (i).

“(C) FINAL DESIGN STAGE.—The Secretary shall issue a record of decision and permit a project to advance to the final design stage of construction not later than 120 days after the date of completion of the final environmental impact statement for such project.

“(D) FULL FUNDING GRANT AGREEMENT.—The Secretary shall negotiate and enter into a full funding grant agreement for a project not later than 120 days after the date on which such project has entered the final design stage of construction. Such full funding grant agreement shall provide for a Federal share of the cost of construction that is not less than the Federal share estimated in the Secretary's most recent report required under section 3(j) or an update thereof unless otherwise requested by an applicant.

“(7) PERMITTED DELAYS IN PROJECT REVIEW.—

“(A) IN GENERAL.—Advancement of a project under the timetables specified under paragraph (6) shall be delayed only—

“(i) for such period of time as the applicant, solely at the applicant's discretion, may request; or

“(ii) during such period of time as the Secretary finds, after reasonable notice and opportunity for comment, that the applicant has failed, for reasons solely attributable to the applicant, to comply substantially

with requirements of this Act with respect to the project.

“(B) EXPLANATION OF DELAY.—Not more than 10 days after imposing any delay under subparagraph (A)(ii), the Secretary shall provide the applicant with a written statement that (i) explains the reasons for such delay, and (ii) describes all steps which the applicant must take to end the period of delay.

Such report shall explain the reasons for the delay and include a plan for achieving timely completion of the Secretary's review of the project.

“(8) TREATMENT OF PROGRAMS OF INTERRELATED PROJECTS.—

“(A) FULL FUNDING GRANT AGREEMENT.—In accordance with the timetables established by paragraph (6) or as otherwise provided by law, the Secretary shall enter into 1 or more full funding grant agreements for each program of interrelated projects described in subparagraph (C). Such full funding grant agreements shall include commitments to advance each of the applicant's program elements (in the program of interrelated projects) through the appropriate stages of project review in accordance with the timetables established by paragraph (6) or as otherwise provided for a project by law, and to provide Federal funding for each such program element. SEC. 3012. METROPOLITAN PLANNING.

The Act is amended by striking section 8 and inserting the following new section:

49 USC app.
1607.

“SEC. 8. METROPOLITAN PLANNING.

“(a) **GENERAL REQUIREMENTS.**—It is in the national interest to encourage and promote the development of transportation systems embracing various modes of transportation in a manner which will efficiently maximize mobility of people and goods within and through urbanized areas and minimize transportation-related fuel consumption and air pollution. To accomplish this objective, metropolitan planning organizations, in cooperation with the State, shall develop transportation plans and programs for urbanized areas of the State. Such plans and programs shall provide for the development of transportation facilities (including pedestrian walkways and bicycle transportation facilities) which will function as an intermodal transportation system for the State, the metropolitan areas, and the Nation. The process for developing such plans and programs shall provide for consideration of all modes of transportation and shall be continuing, cooperative, and comprehensive to the degree appropriate, based on the complexity of the transportation problems.

“(b) **DESIGNATION OF METROPOLITAN PLANNING ORGANIZATIONS.**—

“(1) **IN GENERAL.**—To carry out the transportation planning process required by this section, a metropolitan planning organization shall be designated for each urbanized area of more than 50,000 population by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) or in accordance with procedures established by applicable State or local law.

“(2) **MEMBERSHIP OF CERTAIN MPO'S.**—In a metropolitan area designated as a transportation management area, the metropolitan planning organization designated for such area shall include local elected officials, officials of agencies which administer or operate major modes of transportation in the metropolitan area (including all transportation agencies included in the metropolitan planning organization on June 1, 1991) and appropriate State officials. This paragraph shall only apply to a metropolitan planning organization which is redesignated after the date of the enactment of this section.

“(3) **LIMITATION ON STATUTORY CONSTRUCTION.**—Nothing in this subsection shall be construed to interfere with the authority, under any State law in effect on the date of the enactment

of this section, of a public agency with multimodal transportation responsibilities to—

“(A) develop plans and programs for adoption by a metropolitan planning organization; and

“(B) develop long-range capital plans, coordinate transit services and projects, and carry out other activities pursuant to State law.

“(4) CONTINUING DESIGNATION.—Designations of metropolitan planning organizations, whether made under this section or other provisions of law, shall remain in effect until redesignated under paragraph (5) or revoked by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population or as otherwise provided under State or local procedures.

“(5) REDESIGNATION.—

“(A) PROCEDURES.—A metropolitan planning organization may be redesignated by agreement among the Governor and units of general purpose local government which together represent at least 75 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) as appropriate to carry out this section.

“(B) CERTAIN REQUESTS TO REDESIGNATE.—A metropolitan planning organization shall be redesignated upon request of a unit or units of general purpose local government representing at least 25 percent of the affected population (including the central city or cities as defined by the Bureau of the Census) in any urbanized area (i) whose population is more than 5,000,000 but less than 10,000,000, or (ii) which is an extreme nonattainment area for ozone or carbon monoxide as defined under the Clean Air Act. Such redesignation shall be accomplished using procedures established by subparagraph (A).

“(6) TREATMENT OF LARGE URBAN AREAS.—More than 1 metropolitan planning organization may be designated within an urbanized area as defined by the Bureau of the Census only if the Governor determines that the size and complexity of the urbanized area make designation of more than 1 metropolitan planning organization for such area appropriate.

“(c) METROPOLITAN AREA BOUNDARIES.—For the purposes of this section, the boundaries of a metropolitan area shall be determined by agreement between the metropolitan planning organization and the Governor. Each metropolitan area shall cover at least the existing urbanized area and the contiguous area expected to become urbanized within the 20-year forecast period and may encompass the entire Metropolitan Statistical Area or Consolidated Metropolitan Statistical Area, as defined by the Bureau of the Census. For areas designated as nonattainment areas for ozone or carbon monoxide under the Clean Air Act, the boundaries of the metropolitan area shall at least include the boundaries of the nonattainment area, except as otherwise provided by agreement between the metropolitan planning organization and the Governor.

“(d) COORDINATION IN MULTI-STATE AREAS.—

“(1) IN GENERAL.—The Secretary shall establish such requirements as the Secretary considers appropriate to encourage Governors and metropolitan planning organizations with responsibility for a portion of a multi-State metropolitan area to

provide coordinated transportation planning for the entire metropolitan area.

“(2) **COMPACTS.**—The consent of Congress is hereby given to any 2 or more States to enter into agreements or compacts, not in conflict with any law of the United States, for cooperative efforts and mutual assistance in support of activities authorized under this section as such activities pertain to interstate areas and localities within such States and to establish such agencies, joint or otherwise, as such States may deem desirable for making such agreements and compacts effective.

“(e) **COORDINATION OF MPO’S.**—If more than 1 metropolitan planning organization has authority within a metropolitan area or an area which is designated as a nonattainment area for ozone or carbon monoxide under the Clean Air Act, each metropolitan planning organization shall consult with the other metropolitan planning organizations designated for such area and the State in the coordination of plans and programs required by this section.

“(f) **FACTORS TO BE CONSIDERED.**—In developing transportation plans and programs pursuant to this section, each metropolitan planning organization shall, at a minimum, consider the following:

“(1) Preservation of existing transportation facilities and, where practical, ways to meet transportation needs by using existing transportation facilities more efficiently.

“(2) The consistency of transportation planning with applicable Federal, State, and local energy conservation programs, goals, and objectives.

“(3) The need to relieve congestion and prevent congestion from occurring where it does not yet occur.

“(4) The likely effect of transportation policy decisions on land use and development and the consistency of transportation plans and programs with the provisions of all applicable short- and long-term land use and development plans.

“(5) The programming of expenditure on transportation enhancement activities as required in section 133.

“(6) The effects of all transportation projects to be undertaken within the metropolitan area, without regard to whether such projects are publicly funded.

“(7) International border crossings and access to ports, airports, intermodal transportation facilities, major freight distribution routes, national parks, recreation areas, monuments and historic sites, and military installations.

“(8) The need for connectivity of roads within the metropolitan area with roads outside the metropolitan area.

“(9) The transportation needs identified through use of the management systems required by section 303 of this title.

“(10) Preservation of rights-of-way for construction of future transportation projects, including identification of unused rights-of-way which may be needed for future transportation corridors and identification of those corridors for which action is most needed to prevent destruction or loss.

“(11) Methods to enhance the efficient movement of freight.

“(12) The use of life-cycle costs in the design and engineering of bridges, tunnels, or pavement.

“(13) The overall social, economic, energy, and environmental effects of transportation decisions.

“(14) Methods to expand and enhance transit services and to increase the use of such services.

“(15) Capital investments that would result in increased security in transit systems.

“(g) DEVELOPMENT OF LONG RANGE PLAN.—

“(1) IN GENERAL.—Each metropolitan planning organization shall prepare, and update periodically, according to a schedule that the Secretary determines to be appropriate, a long range plan for its metropolitan area in accordance with the requirements of this subsection.

“(2) LONG RANGE PLAN.—A long range plan under this section shall be in a form that the Secretary determines to be appropriate and shall, at a minimum:

“(A) Identify transportation facilities (including but not necessarily limited to major roadways, transit, and multimodal and intermodal facilities) that should function as an integrated metropolitan transportation system, giving emphasis to those facilities that serve important national and regional transportation functions. In formulating the long range plan, the metropolitan planning organization shall consider factors described in subsection (f) as such factors relate to a 20-year forecast period.

“(B) Include a financial plan that demonstrates how the long-range plan can be implemented, indicates resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommends any innovative financing techniques to finance needed projects and programs, including such techniques as value capture, tolls and congestion pricing.

“(C) Assess capital investment and other measures necessary to—

“(i) ensure the preservation of the existing metropolitan transportation system, including requirements for operational improvements, resurfacing, restoration, and rehabilitation of existing and future major roadways, as well as operations, maintenance, modernization, and rehabilitation of existing and future transit facilities; and

“(ii) make the most efficient use of existing transportation facilities to relieve vehicular congestion and maximize the mobility of people and goods.

“(D) Indicate as appropriate proposed transportation enhancement activities.

“(3) COORDINATION WITH CLEAN AIR ACT AGENCIES.—In metropolitan areas which are in nonattainment for ozone or carbon monoxide under the Clean Air Act, the metropolitan planning organization shall coordinate the development of a long range plan with the process for development of the transportation control measures of the State Implementation Plan required by the Clean Air Act.

“(4) PARTICIPATION BY INTERESTED PARTIES.—Before approving a long range plan, each metropolitan planning organization shall provide citizens, affected public agencies, representatives of transportation agency employees, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the long range plan, in a manner that the Secretary deems appropriate.

“(5) PUBLICATION OF LONG RANGE PLAN.—Each long range plan prepared by a metropolitan planning organization shall be—

“(i) published or otherwise made readily available for public review; and

“(ii) submitted for information purposes to the Governor at such times and in such manner as the Secretary shall establish.

“(h) TRANSPORTATION IMPROVEMENT PROGRAM.—

“(1) DEVELOPMENT.—The metropolitan planning organization designated for a metropolitan area, in cooperation with the State and affected transit operators, shall develop a transportation improvement program for the area for which such organization is designated. In developing the program, the metropolitan planning organization shall provide citizens, affected public agencies, representatives of transportation agency employees, other affected employee representatives, private providers of transportation, and other interested parties with a reasonable opportunity to comment on the proposed program. The program shall be updated at least once every 2 years and shall be approved by the metropolitan planning organization and the Governor.

“(2) PRIORITY OF PROJECTS.—The transportation improvement program shall include the following:

“(A) A priority list of projects and project segments to be carried out within each 3-year period after the initial adoption of the transportation improvement program.

“(B) A financial plan that demonstrates how the transportation improvement program can be implemented, indicates resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommends any innovative financing techniques to finance needed projects and programs, including value capture, tolls, and congestion pricing.

“(3) SELECTION OF PROJECTS.—Except as otherwise provided in subsection (i)(4), project selection in metropolitan areas for projects involving Federal participation shall be carried out by the State in cooperation with the metropolitan planning organization and shall be in conformance with the transportation improvement program for the area.

“(4) MAJOR CAPITAL INVESTMENTS.—Not later than 6 months after the date of enactment of this section, the Secretary shall initiate a rulemaking proceeding to conform review requirements for transit projects under the National Environmental Policy Act of 1969 to comparable requirements under such Act applicable to highway projects. Nothing in this section shall be construed to affect the applicability of such Act to transit or highway projects.

“(5) INCLUDED PROJECTS.—A transportation improvement program for a metropolitan area developed under this subsection shall include projects within the area which are proposed for funding under this title and the Federal Transit Act and which are consistent with the long range plan developed under subsection (g) for the area. The program shall include a project, or an identified phase of a project, only if full funding can reasonably be anticipated to be available for the project within the time period contemplated for completion of the project.

“(6) NOTICE AND COMMENT.—Before approving a transportation improvement program, a metropolitan planning organization shall provide citizens, affected public agencies, representatives of transportation agency employees, private providers of transportation, and other interested parties with reasonable notice of and an opportunity to comment on the proposed program.

“(i) TRANSPORTATION MANAGEMENT AREAS.—

“(1) DESIGNATION.—The Secretary shall designate as transportation management areas all urbanized areas over 200,000 population. The Secretary shall designate any additional area as a transportation management area upon the request of the Governor and the metropolitan planning organization designated for such area or the affected local officials. Such additional areas shall include upon such a request the Lake Tahoe Basin as defined by Public Law 96-551.

“(2) TRANSPORTATION PLANS AND PROGRAMS.—Within a transportation management area, transportation plans and programs shall be based on a continuing and comprehensive transportation planning process carried out by the metropolitan planning organization in cooperation with the State and transit operators.

“(3) CONGESTION MANAGEMENT SYSTEM.—Within a transportation management area, the transportation planning process under this section shall include a congestion management system that provides for effective management of new and existing transportation facilities eligible for funding under this title and the Federal Transit Act through the use of travel demand reduction and operational management strategies. The Secretary shall establish an appropriate phase-in schedule for compliance with the requirements of this section.

“(4) SELECTION OF PROJECTS.—All projects carried out within the boundaries of a transportation management area with Federal participation pursuant to this title (excluding projects undertaken on the National Highway System and pursuant to the Bridge and Interstate Maintenance programs) or pursuant to the Federal Transit Act shall be selected by the metropolitan planning organization designated for such area in consultation with the State and in conformance with the transportation improvement program for such area and priorities established therein. Projects undertaken within the boundaries of a transportation management area on the National Highway System or pursuant to the Bridge and Interstate Maintenance programs shall be selected by the State in cooperation with the metropolitan planning organization designated for such area and shall be in conformance with the transportation improvement program for such area.

“(5) CERTIFICATION.—The Secretary shall assure that each metropolitan planning organization in each transportation management area is carrying out its responsibilities under applicable provisions of Federal law, and shall so certify at least once every 3 years. The Secretary may make such certification only if (1) a metropolitan planning organization is complying with the requirements of section 134 and other applicable requirements of Federal law, and (2) there is a transportation improvement program for the area that has been approved by the metropolitan planning organization and the Governor. If

after September 30, 1993, a metropolitan planning organization is not certified by the Secretary, the Secretary may withhold, in whole or in part, the apportionment under section 104(b)(3) attributed to the relevant metropolitan area pursuant to section 133(d)(3) and capital funds apportioned under the formula program under section 9 of the Federal Transit Act. If a metropolitan planning organization remains uncertified for more than 2 consecutive years after September 30, 1994, 20 percent of the apportionment attributed to that metropolitan area under section 133(d)(3) and capital funds apportioned under the formula program under section 9 of the Federal Transit Act shall be withheld. The withheld apportionments shall be restored to the metropolitan area at such time as the metropolitan planning organization is certified by the Secretary. The Secretary shall not withhold certification under this section based upon the policies and criteria established by a metropolitan planning organization or transit grant recipient for determining the feasibility of private enterprise participation in accordance with section 8(o) of the Federal Transit Act.

“(j) **ABBREVIATED PLANS AND PROGRAMS FOR CERTAIN AREAS.**—For metropolitan areas not designated as transportation management areas under this section, the Secretary may provide for the development of abbreviated metropolitan transportation plans and programs that the Secretary determines to be appropriate to achieve the purposes of this section, taking into account the complexity of transportation problems, including transportation related air quality problems, in such areas. “(k) **TRANSFER OF FUNDS.**—Funds made available for a transit project under title 23, United States Code, shall be transferred to and administered by the Secretary in accordance with the requirements of this Act. Funds made available for a highway project under this Act shall be transferred to and administered by the Secretary in accordance with the requirements of title 23, United States Code.

“(l) **ADDITIONAL REQUIREMENTS FOR CERTAIN NONATTAINMENT AREAS.**—Notwithstanding any other provisions of this Act or title 23, United States Code, for transportation management areas classified as nonattainment for ozone or carbon monoxide pursuant to the Clean Air Act, Federal funds may not be programmed in such area for any transit project that will result in a significant increase in carrying capacity for single occupant vehicles unless the project is part of an approved congestion management system.

“(m) **LIMITATION ON STATUTORY CONSTRUCTION.**—Nothing in this section shall be construed—

“(1) to confer on a metropolitan planning organization the authority to impose legal requirements on any transportation facility, provider, or project not eligible under this title or the Federal Transit Act; or

“(2) to intervene in the management of a transportation agency.

“(n) **GRANTS.**—

“(1) **ELIGIBILITY.**—The Secretary is authorized to contract for and make grants to States and local public bodies and agencies thereof, or enter into agreements with other Federal departments and agencies, for the planning, engineering, design, and

“(A) studies relating to management, operations, capital requirements, and economic feasibility;

“(B) evaluation of previously funded projects; and

“(C) other similar or related activities preliminary to and in preparation for the construction, acquisition, or improved operation of facilities and equipment.

“(o) PRIVATE ENTERPRISE.—The plans and programs required by this section shall encourage to the maximum extent feasible the participation of private enterprise. Where facilities and equipment are to be acquired which are already being used in service in the urban areas, the program must provide that they shall be so improved (through modernization, extension, addition, or otherwise) that they will better serve the transportation needs of the area.

“(p) USE FOR COMPREHENSIVE PLANNING.—

“(1) IN GENERAL.—The Secretary shall ensure, to the extent practicable, that amounts made available under section 21(c)(1) for the purposes of this section are used to support balanced and comprehensive transportation planning that takes into account the relationships among land use and all transportation modes, without regard to the programmatic source of the planning funds.

“(2) FORMULA ALLOCATION TO ALL METROPOLITAN AREAS.—The Secretary shall apportion 80 percent of the amount made available under section 21(c)(1) to States in the ratio that the population in urbanized areas, in each State, bears to the total population in urbanized areas, in all the States as shown by the latest available decennial census, except that no State shall receive less than $\frac{1}{2}$ of 1 percent of the amount apportioned under this paragraph. Such funds shall be allocated to metropolitan planning organizations designated under section 8 by a formula, developed by the State in cooperation with metropolitan planning organizations and approved by the Secretary, that considers population in urbanized areas and provides an appropriate distribution for urbanized areas to carry out the cooperative processes described in section 8 of this Act. The State shall make such funds available promptly to eligible metropolitan planning organizations according to procedures approved by the Secretary.

“(3) SUPPLEMENTAL ALLOCATION.—The Secretary shall apportion 20 percent of the amounts made available under section 21(c)(1) to States to supplement allocations under subparagraph (B) for metropolitan planning organizations. Such funds shall be allocated according to a formula that reflects the additional costs of carrying out planning, programming, and project selection responsibilities under this section in such areas.

“(4) HOLD HARMLESS.—The Secretary shall ensure, to the maximum extent practicable, that no metropolitan planning organization is allocated less than the amount it received by administrative formula under section 8 in fiscal year 1991. To comply with the previous sentence, the Secretary is authorized

to make a pro rata reduction in other amounts made available to carry out section 21(c).

“(5) **FEDERAL SHARE PAYABLE.**—The Federal share payable for activities under this paragraph shall be 80 percent except where the Secretary determines that it is in the Federal interest not to require a State or local match.”.

“(v) shall not authorize the charging or collection of any fee for filing and maintaining a certificate or permit under subparagraph (A)(i) of this paragraph.

SEC. 6009. SURFACE TRANSPORTATION RESEARCH AND DEVELOPMENT PLANNING.

23 USC 307 note.

(a) **FINDINGS.**—Congress finds that—

(1) despite an annual expenditure in excess of \$10,000,000,000 on surface transportation and its infrastructure, the Federal Government has not developed a clear vision of—

(A) how the surface transportation systems of the 21st century will differ from the present;

(B) how they will interface with each other and with other forms of transportation;

(C) how such systems will adjust to changing American population patterns and lifestyles; and

(D) the role of federally funded research and development in ensuring that appropriate transportation systems are developed and implemented;

(2) the population of the United States is projected to increase by over 30,000,000 people within the next 20 years, mostly in existing major metropolitan areas, which will result in increased traffic congestion within and between urban areas, more accidents, loss of productive time, and increased cost of transportation unless new technologies are developed to improve public transportation within cities and to move people and goods between cities;

(3) 18,000,000 crashes, 4,000,000 injuries, and 45,000 fatalities each year on the Nation's highways are intolerable and substantial research is required in order to develop safer technologies in their most useful and economic forms;

(4) current research and development funding for surface transportation is insufficient to provide the United States with the technologies essential to providing its own advanced transportation systems in the future and, as a result, the United States is becoming increasingly dependent on foreign surface transportation technologies and equipment to meet its expanding surface transportation needs;

(5) a more active, focused surface transportation research and development program involving cooperation among the Federal Government, United States based industry, and United States universities should be organized on a priority basis;

(6) intelligent vehicle highway systems represent the best near-term technology for improving surface transportation for public benefit by providing equipment which can improve traffic flow and provide for enhanced safety;

(7) research and development programs related to surface transportation are fragmented and dispersed throughout government and need to be strengthened and incorporated in an integrated framework within which a consensus on the goals of a national surface transportation research and development program must be developed;

(8) the inability of government agencies to cooperate effectively, the difficulty of obtaining public support for new systems and rights-of-way, and the high cost of capital financing discourage private firms from investing in the development of new transportation equipment and systems; therefore, the Federal Government should sponsor and coordinate research and development of new technologies to provide safer, more convenient, and affordable transportation systems for use in the future; and

(9) an effective high technology applied research and development program should be implemented quickly by strengthening the Department of Transportation research and development

staff and by contracting with private industry for specific development projects.

(b) **SURFACE TRANSPORTATION RESEARCH AND DEVELOPMENT PLAN.**—

(1) **DEVELOPMENT.**—The Secretary shall develop an integrated national surface transportation research and development plan (hereinafter in this subsection referred to as the “plan”).

(2) **FOCUS.**—The plan shall focus on surface transportation systems needed for urban, suburban, and rural areas in the next decade.

(3) **CONTENTS.**—The plan shall include the following:

(A) Details of the Department’s surface transportation research and development programs, including appropriate funding levels and a schedule with milestones, preliminary cost estimates, appropriate work scopes, personnel requirements, and estimated costs and goals for the next 3 years for each area of research and development.

(B) A 10-year projection of long-term programs in surface transportation research and development and recommendations for the appropriate source or mechanism for surface transportation research and development funding, taking into account recommendations of the Research and Development Coordinating Council of the Department of Transportation and the plan of the National Council on Surface Transportation Research.

(C) Recommendations on changes needed to assure that Federal, State, and local contracting procedures encourage the adoption of advanced technologies developed as a consequence of the research programs in this Act.

(4) **OBJECTIVES.**—The plan shall provide for the following:

(A) The development, within the shortest period of time possible, of a range of technologies needed to produce convenient, safe, and affordable modes of surface transportation to be available for public use beginning in the mid-1990’s.

(B) Maintenance of a long-term advanced research and development program to provide for next generation surface transportation systems.

(5) **COOPERATION WITH INDUSTRY.**—A primary component of the plan shall be cooperation with industry in carrying out this part and strengthening the manufacturing capabilities of United States firms in order to produce products for surface transportation systems.

(6) **CONFORMANCE WITH PLAN.**—All surface transportation research and development within the Department of Transportation shall be included in the plan and shall be evaluated in accordance with the plan.

(7) **COORDINATION.**—In developing the plan and carrying out this part, the Secretary shall consult with and, where appropriate, use the expertise of other Federal agencies and their laboratories.

(8) **TRANSMITTAL.**—On or before January 15, 1993, and annually thereafter, the Secretary shall transmit the plan to Congress, together with the Secretary’s comments and recommendations. The Secretary shall review and update the plan before each transmittal under this paragraph.

Reports.

(9) **RECOMMENDATIONS FOR ALTERNATIVES.**—In the event a different technology or alternative program can be identified that would accomplish the same or better results than those described in this part, the Secretary may make recommendations for an alternative, and shall promptly report such alternative recommendations to Congress.

49 USC app.
1601 note.

SEC. 8004. COMMUTE-TO-WORK BENEFITS.

(a) **FINDINGS.**—The Congress finds that—

(1) current Federal policy places commuter transit benefits at a disadvantage compared to drive-to-work benefits;

(2) this Federal policy is inconsistent with important national policy objectives, including the need to conserve energy, reduce reliance on energy imports, lessen congestion, and clean our Nation’s air;

(3) commuter transit benefits should be part of a comprehensive solution to national transportation and air pollution problems;

(4) current Federal law allows employers to provide only up to \$21 per month in employee benefits for transit or van pools;

(5) the current “cliff provision”, which treats an entire commuter transit benefit as taxable income if it exceeds \$21 per month, unduly penalizes the most effective employer efforts to change commuter behavior;

(6) employer-provided commuter transit incentives offer many public benefits, including increased access of low-income persons to good jobs, inexpensive reduction of roadway and parking congestion, and cost-effective incentives for timely arrival at work; and

(7) legislation to provide equitable treatment of employer-provided commuter transit benefits has been introduced with bipartisan support in both the Senate and House of Representatives.

(b) **POLICY.**—The Congress strongly supports Federal policy that promotes increased use of employer-provided commuter transit benefits. Such a policy “levels the playing field” between transportation modes and is consistent with important national objectives of energy conservation, reduced reliance on energy imports, lessened congestion, and clean air.

SEC. 8005. BUDGET COMPLIANCE.

(a) **IN GENERAL.**—If obligations provided for programs pursuant to this Act for fiscal year 1992 will cause—

(1) the total outlays in any of the fiscal years 1992 through 1995 which result from this Act, to exceed

(2) the total outlays for such programs in any such fiscal year which result from appropriation Acts for fiscal year 1992 and are attributable to obligations for fiscal year 1992,

then the Secretary of Transportation shall reduce proportionately the obligations provided for each program pursuant to this Act for fiscal year 1992 to the extent required to avoid such excess outlays.

(b) **COORDINATION WITH OTHER PROVISIONS.**—The provisions of this section shall apply, notwithstanding any provision of this Act to the contrary.

(4) Before October 1, 1992, the Secretary of Transportation shall use funds as may be necessary, not more than \$14,000,000, to begin and actively pursue the renovation project to extend the useful life of the Coast Guard Cutter Mackinaw at least an additional 15 years.

SEC. 53. DISCLOSURE REGARDING RECREATIONAL VESSEL FEE.

Section 2110(b) of title 46, United States Code, is amended by adding at the end the following new paragraph:

"(5) The Secretary shall provide to each person who pays a fee or charge under this subsection a separate document on which appears, in readily discernible print, only the following statement: 'The fees for which this document was provided was established under the Omnibus Budget Reconciliation Act of 1990. Persons paying this fee can expect no increase in the quantity, quality, or variety of services the person receives from the Coast Guard as a result of that payment.'"

SEC. 54. SENSE OF THE CONGRESS ON COAST GUARD RESCUE EFFORTS.

(a) The Congress finds that—

(1) during the month of October, Air Station Cape Cod experienced one of the most intense periods of search and rescue activities, including fifty-one search and rescue cases of which twenty-seven were in the last ten days of the month;

(2) immediately prior to the winter storm that ravaged Cape Cod from October 28 to November 1, with average seas of 35-40 feet and winds exceeding eighty knots, coastal small boat station personnel on Cape Cod and the Islands of Nantucket and Martha's Vineyard successfully worked with the local communities and the fishing industry to secure the small coastal ports to minimize damage to vessels and property;

(3) Group Portland, Group Boston, and Group Woods Hole units suffered significant damage to coastal small boat stations, lighthouses, and other aids to navigation but this damage did not affect operational readiness and Coast Guard boats and aircraft were prepared to respond to emergencies;

(4) during the five-day period from October 28 to November 1, the Coast Guard Cutter GENETIN, Coast Guard Cutter BEAR and Coast Guard helicopters stationed at Elizabeth City, North Carolina participated in five offshore rescue operations that saved twenty-one lives;

(5) Coast Guard flight crews operating from Elizabeth City logged fifty-six hours of flight time during the seventy-two-hour-period when Hurricane Grace buffeted the North Carolina Coast;

(6) The Coast Guard performed these search and rescue operations while fulfilling other important missions including the

monitoring of a sulfuric acid spill and a sensitive law enforcement operation.

(b) The Congress commends the Coast Guard units involved for their remarkable skill, performance and dedication in protecting life and property and urges the people of the United States to recognize this job well done.

SEC. 55. SENSE OF THE CONGRESS ON RECREATIONAL BOAT FEES.

(a) The Congress finds that—

(1) under section 9701 of title 31, United States Code, and section 664 of title 14, United States Code, Coast Guard user fees must be fair, based on the cost to the Coast Guard of providing services or things of value, based on the value of services or things of value provided by the Coast Guard, and based on a valid public policy or interest;

(2) the Coast Guard fee imposed upon recreational boaters under section 2110(b) of title 46, United States Code, was established under the Omnibus Budget Reconciliation Act of 1990 (Public Law 101-508; 104 Stat. 1388-1397);

(3) recreational boaters who are required to pay this fee cannot expect to receive any additional service in return for payment of the fee;

(4) recreational boaters already pay a motorboat fuel tax that contributes to the Coast Guard budget; and

(5) the fee imposed upon recreational boaters will not be directly available to the Coast Guard to increase services that would benefit recreational boaters.

(b) It is the sense of Congress that the requirement that the Coast Guard collect a fee from recreational boaters under section 2110(b) of title 46, United States Code, should be repealed immediately upon enactment of an offsetting receipts provision to comply with the requirements of the Omnibus Budget Reconciliation Act of 1990.

“(A) whether the appropriate authorities in the home country of the foreign bank have consented to the proposed establishment of a branch, agency or commercial lending company in the United States by the foreign bank;

“(B) the financial and managerial resources of the foreign bank, including the bank's experience and capacity to engage in international banking;

“(4) FACTOR.—In acting on an application under paragraph (1), the Board shall not make the size of the foreign bank the sole determinant factor, and may take into account the needs of the community as well as the length of operation of the foreign bank and its relative size in its home country. Nothing in this paragraph shall affect the ability of the Board to order a State branch, agency, or commercial lending company subsidiary to terminate its activities in the United States pursuant to any standard set forth in this Act.

However, in making findings under this paragraph, the Board shall not make size the sole determinant factor, and may take into account the needs of the community as well as the length of operation of the foreign bank and its relative size in its home country. Nothing in this paragraph shall affect the ability of the Board to order a State branch, agency, or commercial lending company subsidiary to terminate its activities in the United States pursuant to any standard set forth in this Act.

“(f) PREFERENCES FOR SALES.—

“(1) IN GENERAL.—In selling any eligible multifamily housing property or combinations of eligible residential properties, the Corporation shall give preference, among substantially similar offers, to the offer that would reserve the highest percentage of dwelling units for occupancy or purchase by very low-income and low-income families and would retain such affordability for the longest term.

“(2) MULTIPROPERTY PURCHASES.—The Corporation shall give preference, among substantially similar offers made under paragraph (4) or (5) of subsection (d) to purchase more than one eligible multifamily housing property as a part of the same negotiation, to offers made by purchasers who agree to maintain low-income occupancy in each separate property purchased in compliance with the levels required for properties under subsection (d)(7)(A).

“(3) DEFINITION OF SUBSTANTIALLY SIMILAR OFFERS.—For purposes of this subsection, a given offer to purchase eligible multifamily housing property or combinations of such properties shall be considered to be substantially similar to another offer if the purchase price under such given offer is not less than 85 percent of the purchase price under the other offer.

Subtitle F—Truth in Savings

SEC. 261. SHORT TITLE.

This subtitle may be cited as the “Truth in Savings Act”.

SEC. 262. FINDINGS AND PURPOSE.

(a) **FINDINGS.**—The Congress hereby finds that economic stability would be enhanced, competition between depository institutions would be improved, and the ability of the consumer to make informed decisions regarding deposit accounts, and to verify accounts, would be strengthened if there was uniformity in the disclosure of terms and conditions on which interest is paid and fees are assessed in connection with such accounts.

(b) **PURPOSE.**—It is the purpose of this subtitle to require the clear and uniform disclosure of—

(1) the rates of interest which are payable on deposit accounts by depository institutions; and

(2) the fees that are assessable against deposit accounts, so that consumers can make a meaningful comparison between the competing claims of depository institutions with regard to deposit accounts.

12 USC 4302.

SEC. 263. DISCLOSURE OF INTEREST RATES AND TERMS OF ACCOUNTS.

(a) **IN GENERAL.**—Except as provided in subsection (b), each advertisement, announcement, or solicitation initiated by any depository institution or deposit broker relating to any demand or interest-bearing account offered by an insured depository institution which includes any reference to a specific rate of interest payable on amounts deposited in such account, or to a specific yield or rate of

earnings on amounts so deposited, shall state the following information, to the extent applicable, in a clear and conspicuous manner:

(1) The annual percentage yield.

(2) The period during which such annual percentage yield is in effect.

(3) All minimum account balance and time requirements which must be met in order to earn the advertised yield (and, in the case of accounts for which more than 1 yield is stated, each annual percentage yield and the account minimum balance requirement associated with each such yield shall be in close proximity and have equal prominence).

(4) The minimum amount of the initial deposit which is required to open the account in order to obtain the yield advertised, if such minimum amount is greater than the minimum balance necessary to earn the advertised yield.

(5) A statement that regular fees or other conditions could reduce the yield.

(6) A statement that an interest penalty is required for early withdrawal.

(b) **BROADCAST AND ELECTRONIC MEDIA AND OUTDOOR ADVERTISING EXCEPTION.**—The Board may, by regulation, exempt advertisements, announcements, or solicitations made by any broadcast or electronic medium or outdoor advertising display not on the premises of the depository institution from any disclosure requirements described in paragraph (4) or (5) of subsection (a) if the Board finds that any such disclosure would be unnecessarily burdensome.

(c) **MISLEADING DESCRIPTIONS OF FREE OR NO-COST ACCOUNTS PROHIBITED.**—No advertisement, announcement, or solicitation made by any depository institution or deposit broker may refer to or describe an account as a free or no-cost account (or words of similar meaning) if—

(1) in order to avoid fees or service charges for any period—

(A) a minimum balance must be maintained in the account during such period; or

(B) the number of transactions during such period may not exceed a maximum number; or

(2) any regular service or transaction fee is imposed.

(d) **MISLEADING OR INACCURATE ADVERTISEMENTS, ETC., PROHIBITED.**—No depository institution or deposit broker shall make any advertisement, announcement, or solicitation relating to a deposit account that is inaccurate or misleading or that misrepresents its deposit contracts.

(3) approximately \$200,000,000,000 of the nearly \$400,000,000,000 in commercial real estate loans now held by commercial banks are coming due within the next 2 years;

(4) banks for a variety of reasons, are reluctant to renew these maturing real estate loans;

(5) both pension funds in the United States, with assets of nearly \$2,000,000,000,000, and a stronger and more active secondary market for commercial real estate debt and equity could play a more significant role in providing liquidity and credit to the real estate and banking sectors of the economy;

(6) many regulatory practices encourage banks to reduce their real estate lending without regard to long-term historical risk; and

(7) the stability of real estate has suffered during the past decade first from tax rules that in 1981 stimulated excessive investment in real estate, and then in 1986 when rules were adopted that discourage capital investment in real estate, artificially eroding real estate values.

(1) immediate and carefully-coordinated action should be taken by the Congress and the President to arrest the credit crisis referred to in subsection (a) and provide a healthy and efficient marketplace that works for owners, lenders, and investors; and

(2) that efforts should be undertaken to explore measures that—

(A) modernize and simplify the rules that apply to pension investment in real estate to remove unnecessary barriers to pension funds seeking to invest in real estate;

(B) strengthen the secondary market for commercial real estate debt and equity by removing arbitrary obstacles to private forms of credit enhancement;

(C) restore balance to the regulatory environment by considering the impact of risk-based capital standards on commercial, multifamily and single-family real estate; ending mark-to-market, liquidation-based, appraisals; encouraging loan renewals; and, fully communicating the supervisory policy to bank examiners in the field; and

(D) rationalize the tax system for real estate owners and operators by modifying the passive loss rules and encouraging loan restructures.

Public Law 102-243
102d Congress

An Act

Dec. 20, 1991

[S. 1462]

To amend the Communications Act of 1934 to prohibit certain practices involving the use of telephone equipment.

Telephone
Consumer
Protection Act of
1991.
47 USC 609 note.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Telephone Consumer Protection Act of 1991”.

47 USC 227 note.

SEC. 2. FINDINGS.

The Congress finds that:

(1) The use of the telephone to market goods and services to the home and other businesses is now pervasive due to the increased use of cost-effective telemarketing techniques.

(2) Over 30,000 businesses actively telemarket goods and services to business and residential customers.

(3) More than 300,000 solicitors call more than 18,000,000 Americans every day.

(4) Total United States sales generated through telemarketing amounted to \$435,000,000,000 in 1990, a more than four-fold increase since 1984.

(5) Unrestricted telemarketing, however, can be an intrusive invasion of privacy and, when an emergency or medical assistance telephone line is seized, a risk to public safety.

(6) Many consumers are outraged over the proliferation of intrusive, nuisance calls to their homes from telemarketers.

(7) Over half the States now have statutes restricting various uses of the telephone for marketing, but telemarketers can evade their prohibitions through interstate operations; therefore, Federal law is needed to control residential telemarketing practices.

(8) The Constitution does not prohibit restrictions on commercial telemarketing solicitations.

(9) Individuals’ privacy rights, public safety interests, and commercial freedoms of speech and trade must be balanced in a way that protects the privacy of individuals and permits legitimate telemarketing practices.

(10) Evidence compiled by the Congress indicates that residential telephone subscribers consider automated or prerecorded telephone calls, regardless of the content or the initiator of the message, to be a nuisance and an invasion of privacy.

(11) Technologies that might allow consumers to avoid receiving such calls are not universally available, are costly, are unlikely to be enforced, or place an inordinate burden on the consumer.

(12) Banning such automated or prerecorded telephone calls to the home, except when the receiving party consents to receiving the call or when such calls are necessary in an emergency

situation affecting the health and safety of the consumer, is the only effective means of protecting telephone consumers from this nuisance and privacy invasion.

(13) While the evidence presented to the Congress indicates that automated or prerecorded calls are a nuisance and an invasion of privacy, regardless of the type of call, the Federal Communications Commission should have the flexibility to design different rules for those types of automated or prerecorded calls that it finds are not considered a nuisance or invasion of privacy, or for noncommercial calls, consistent with the free speech protections embodied in the First Amendment of the Constitution.

(14) Businesses also have complained to the Congress and the Federal Communications Commission that automated or prerecorded telephone calls are a nuisance, are an invasion of privacy, and interfere with interstate commerce.

(15) The Federal Communications Commission should consider adopting reasonable restrictions on automated or prerecorded calls to businesses as well as to the home, consistent with the constitutional protections of free speech.

SEC. 3. RESTRICTIONS ON THE USE OF TELEPHONE EQUIPMENT.

(a) AMENDMENT.—Title II of the Communications Act of 1934 (47 U.S.C. 201 et seq.) is amended by adding at the end the following new section:

“SEC. 227. RESTRICTIONS ON THE USE OF TELEPHONE EQUIPMENT.

47 USC 227.

“(a) DEFINITIONS.—As used in this section—

“(1) The term ‘automatic telephone dialing system’ means equipment which has the capacity—

“(A) to store or produce telephone numbers to be called, using a random or sequential number generator; and

“(B) to dial such numbers.

“(2) The term ‘telephone facsimile machine’ means equipment which has the capacity (A) to transcribe text or images, or both, from paper into an electronic signal and to transmit that signal over a regular telephone line, or (B) to transcribe text or images (or both) from an electronic signal received over a regular telephone line onto paper.

“(3) The term ‘telephone solicitation’ means the initiation of a telephone call or message for the purpose of encouraging the purchase or rental of, or investment in, property, goods, or services, which is transmitted to any person, but such term does not include a call or message (A) to any person with that person’s prior express invitation or permission, (B) to any person with whom the caller has an established business relationship, or (C) by a tax exempt nonprofit organization.

“(4) The term ‘unsolicited advertisement’ means any material advertising the commercial availability or quality of any property, goods, or services which is transmitted to any person without that person’s prior express invitation or permission.

“(b) RESTRICTIONS ON THE USE OF AUTOMATED TELEPHONE EQUIPMENT.—

“(1) PROHIBITIONS.—It shall be unlawful for any person within the United States—

“(A) to make any call (other than a call made for emergency purposes or made with the prior express consent of

the called party) using any automatic telephone dialing system or an artificial or prerecorded voice—

“(i) to any emergency telephone line (including any ‘911’ line and any emergency line of a hospital, medical physician or service office, health care facility, poison control center, or fire protection or law enforcement agency);

“(ii) to the telephone line of any guest room or patient room of a hospital, health care facility, elderly home, or similar establishment; or

“(iii) to any telephone number assigned to a paging service, cellular telephone service, specialized mobile radio service, or other radio common carrier service, or any service for which the called party is charged for the call;

“(B) to initiate any telephone call to any residential telephone line using an artificial or prerecorded voice to deliver a message without the prior express consent of the called party, unless the call is initiated for emergency purposes or is exempted by rule or order by the Commission under paragraph (2)(B);

“(C) to use any telephone facsimile machine, computer, or other device to send an unsolicited advertisement to a telephone facsimile machine; or

“(D) to use an automatic telephone dialing system in such a way that two or more telephone lines of a multi-line business are engaged simultaneously.

“(2) REGULATIONS; EXEMPTIONS AND OTHER PROVISIONS.—The Commission shall prescribe regulations to implement the requirements of this subsection. In implementing the requirements of this subsection, the Commission—

“(A) shall consider prescribing regulations to allow businesses to avoid receiving calls made using an artificial or prerecorded voice to which they have not given their prior express consent; and

“(B) may, by rule or order, exempt from the requirements of paragraph (1)(B) of this subsection, subject to such conditions as the Commission may prescribe—

“(i) calls that are not made for a commercial purpose; and

“(ii) such classes or categories of calls made for commercial purposes as the Commission determines—

“(I) will not adversely affect the privacy rights that this section is intended to protect; and

“(II) do not include the transmission of any unsolicited advertisement.

“(3) PRIVATE RIGHT OF ACTION.—A person or entity may, if otherwise permitted by the laws or rules of court of a State, bring in an appropriate court of that State—

“(A) an action based on a violation of this subsection or the regulations prescribed under this subsection to enjoin such violation,

“(B) an action to recover for actual monetary loss from such a violation, or to receive \$500 in damages for each such violation, whichever is greater, or

“(C) both such actions.

If the court finds that the defendant willfully or knowingly violated this subsection or the regulations prescribed under this subsection, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under subparagraph (B) of this paragraph.

“(c) PROTECTION OF SUBSCRIBER PRIVACY RIGHTS.—

“(1) RULEMAKING PROCEEDING REQUIRED.—Within 120 days after the date of enactment of this section, the Commission shall initiate a rulemaking proceeding concerning the need to protect residential telephone subscribers’ privacy rights to avoid receiving telephone solicitations to which they object. The proceeding shall—

“(A) compare and evaluate alternative methods and procedures (including the use of electronic databases, telephone network technologies, special directory markings, industry-based or company-specific ‘do not call’ systems, and any other alternatives, individually or in combination) for their effectiveness in protecting such privacy rights, and in terms of their cost and other advantages and disadvantages;

“(B) evaluate the categories of public and private entities that would have the capacity to establish and administer such methods and procedures;

“(C) consider whether different methods and procedures may apply for local telephone solicitations, such as local telephone solicitations of small businesses or holders of second class mail permits;

“(D) consider whether there is a need for additional Commission authority to further restrict telephone solicitations, including those calls exempted under subsection (a)(3) of this section, and, if such a finding is made and supported by the record, propose specific restrictions to the Congress; and

“(E) develop proposed regulations to implement the methods and procedures that the Commission determines are most effective and efficient to accomplish the purposes of this section.

“(2) REGULATIONS.—Not later than 9 months after the date of enactment of this section, the Commission shall conclude the rulemaking proceeding initiated under paragraph (1) and shall prescribe regulations to implement methods and procedures for protecting the privacy rights described in such paragraph in an efficient, effective, and economic manner and without the imposition of any additional charge to telephone subscribers.

“(3) USE OF DATABASE PERMITTED.—The regulations required by paragraph (2) may require the establishment and operation of a single national database to compile a list of telephone numbers of residential subscribers who object to receiving telephone solicitations, and to make that compiled list and parts thereof available for purchase. If the Commission determines to require such a database, such regulations shall—

“(A) specify a method by which the Commission will select an entity to administer such database;

“(B) require each common carrier providing telephone exchange service, in accordance with regulations prescribed by the Commission, to inform subscribers for telephone exchange service of the opportunity to provide notification,

in accordance with regulations established under this paragraph, that such subscriber objects to receiving telephone solicitations;

“(C) specify the methods by which each telephone subscriber shall be informed, by the common carrier that provides local exchange service to that subscriber, of (i) the subscriber’s right to give or revoke a notification of an objection under subparagraph (A), and (ii) the methods by which such right may be exercised by the subscriber;

“(D) specify the methods by which such objections shall be collected and added to the database;

“(E) prohibit any residential subscriber from being charged for giving or revoking such notification or for being included in a database compiled under this section;

“(F) prohibit any person from making or transmitting a telephone solicitation to the telephone number of any subscriber included in such database;

“(G) specify (i) the methods by which any person desiring to make or transmit telephone solicitations will obtain access to the database, by area code or local exchange prefix, as required to avoid calling the telephone numbers of subscribers included in such database; and (ii) the costs to be recovered from such persons;

“(H) specify the methods for recovering, from persons accessing such database, the costs involved in identifying, collecting, updating, disseminating, and selling, and other activities relating to, the operations of the database that are incurred by the entities carrying out those activities;

“(I) specify the frequency with which such database will be updated and specify the method by which such updating will take effect for purposes of compliance with the regulations prescribed under this subsection;

“(J) be designed to enable States to use the database mechanism selected by the Commission for purposes of administering or enforcing State law;

“(K) prohibit the use of such database for any purpose other than compliance with the requirements of this section and any such State law and specify methods for protection of the privacy rights of persons whose numbers are included in such database; and

“(L) require each common carrier providing services to any person for the purpose of making telephone solicitations to notify such person of the requirements of this section and the regulations thereunder.

“(4) CONSIDERATIONS REQUIRED FOR USE OF DATABASE METHOD.—If the Commission determines to require the database mechanism described in paragraph (3), the Commission shall—

“(A) in developing procedures for gaining access to the database, consider the different needs of telemarketers conducting business on a national, regional, State, or local level;

“(B) develop a fee schedule or price structure for recouping the cost of such database that recognizes such differences and—

“(i) reflect the relative costs of providing a national, regional, State, or local list of phone numbers of

subscribers who object to receiving telephone solicitations;

“(ii) reflect the relative costs of providing such lists on paper or electronic media; and

“(iii) not place an unreasonable financial burden on small businesses; and

“(C) consider (i) whether the needs of telemarketers operating on a local basis could be met through special markings of area white pages directories, and (ii) if such directories are needed as an adjunct to database lists prepared by area code and local exchange prefix.
